

# International Public Notice: We Do Not Live in a Constitutional Republic

By Anna Von Reitz

This is another lie and narrative being promoted by the Vermin and misled patriots.

Between 1787 and 1861 we had a Constitutional Republic; we didn't live in it, but it served us faithfully and well, and did the work it was supposed to do.

The Constitutional Republic, also called the Federal Republic, was the American Federal Services Subcontractor operating under The Constitution for the united States of America.

The Federal Republic was operated as a Subcontractor of the Union States by the original Confederation.

When the Southern Delegates walked out and left the original Confederation without a quorum, the Confederation could no longer operate, and so, it could not operate the Federal Republic, either.

The Confederation and the Federal Republic, both, have never been Reconstructed. They don't exist. They haven't existed for 163 years.

So all these people chirping about living in a Constitutional Republic don't know what they are talking about and have nothing to chirp over. They

certainly don't have the brains or the knowledge, either one, to lead us home again.

This country has a lot of soul-searching and hard work to do, and the U.S. Army should just stop their nonsense.

What actually and factually happened is that in 1863 the British Territorial Corporation operating as "the United States of America, Incorporated" went bankrupt.

Lincoln issued General Order 100, the very first so-called Executive Order, and the very next day, he declared bankruptcy.

This left the U.S. Army, aka, Union Army, in charge. They have been in charge ever since.

Once the armed hostilities ended, the Union Army -- Grant, Sherman, et alia, wanted to retain control and get revenge in terms of "war reparations" which they mercilessly enforced on the Southern States using new Military District Courts, set up as King's Bench Courts on American soil.

They were all crooks and traitors that deserved a firing squad.

These "Special Admiralty" Carpetbagger Courts are still in operation nationwide, and the criminals are still in control, still war-mongering, and still trying every trick in the book to stay in power.

They want to occupy our "vacant" Federal Republic and claim to be Successors to The Constitution for the united States of America, but they aren't American.

They are British Territorials -- Tories, loyal to the British King, sickening little sycophants benefiting from his largesse -- while pillaging and denigrating the people of this country.

And now, they are trying to substitute their British Territorial version of "a" Constitutional Republic for our American Constitutional Republic, to which we all say, go stuff yourselves.

The truth is the truth and the truth will out.

There has been enough British Bunko already. They need to get back in their box or leave. Go back to Britain, if the British people will still have them. They are in Gross Breach of Trust, in violation of their Service Contracts, and in cured Default.

The actual inheritors have been unlawfully registered as U.S. Citizens under conditions of non-disclosure and deceit, by those under contract to provide us with "good faith service".

Cease and desist.
