

International Public Notice: We Forbid Attacking Iran

By Anna Von Reitz

Thanks to "autocorrect" changing our intended message, we are obliged to re-issue this initial Notice concerning the attacks ongoing against Iran by the United States, Inc. and the USA, LLC, and various other private mercenary organizations that have been paid by Britain and the Zionist lobby to do this unlawful and illegal thing.

We wish it to be clear that our American Government does not support lawlessness nor bullying, both of which the Trump Administration has engaged in without any transparency regarding the motivations for this attack. It's true that Islam like Zionism, is a political party engaged in providing a theocratic government, quite apart from the Muslim religion or the Jewish religion, either one, respectively.

It's true that their forms of law are separate from and in some parts, antithetical to our form(s) of government. There are many, many forms of government that don't embrace our republican form of government nor the democracy of the British Territorial United States. That in no way provides grounds to attack a sovereign nation state that is endowed with its own freewill and right to choose a form of government no less than ourselves.

Their choice is no direct threat to us.

If it were, we would be justified in attacking Israel and obliterating it using the same False Premise.

As the Iranian Ambassador to the United Nations said, this is a violation of Iran's sovereign rights guaranteed under the United Nations Charter.

We do not wish to be blamed for the unlawful and illegal actions of these corporations which have abused our flag in Bad Faith, so we are serving Notice that they have done this without our permission and are not acting "for" us in this matter.

These corporations are subcontractors of our government who have no right to wage war "in our names" without our Congress acting upon the issue. **They have no executive "war powers" under this government and should be flying the British Union Jack, not the Stars and Stripes.**

This is an official Warning and Notice to all countries that this is the circumstance which we all face. Take Notice. This is a False Flag action on the part of these foreign commercial corporations. Our flag should not be used for this purpose and they have no granted authority to wage war against any nation absent a formal Declaration of War issued by our Congress.

No such Declaration exists and no such action has been approved. They are acting outside and apart from The Constitution of the United States of America and are engaged

in extraterritorial armed piracy at the behest of Great Britain and Israel.

We are not at fault for this and do not accept any expense or responsibility for it. These rogue corporations have acted under color of law and have abused our Title IV Flag in breach of trust and service contract.

Please see the slight correction in our original International Public Notice.

Corrected: International Public Notice: We Forbid Attacking Iran

Britain and Israel have both been our most intractable enemies, along with Rome. And here they are, using Trump's Administration to foment yet another war in the Middle East for them, when he can't even clean up the streets in Minneapolis.

This crazy attack against Iran has been planned for thirty years and is just another example of war-mongering for profit.

Remember how they bragged they were going to take out seven countries in five years?

We are pulling our support and making it clear that not a drop of American funding and not a single American-paid for piece of equipment is to be used in any war against Iran.

Not a penny spent on any such effort is to be charged back against any American asset or account.

Mr. Trump is clearly being influenced by Mr. Netanyahu again. Let Israel pay for its own wars. We are done doing so.

It has nothing to do with defending this country at all and is an abuse of this country and its people to even think about war with Iran on our ticket, using our sons and daughters for gun fodder in another insane Zionist war.

We say— No.

We say it emphatically and before the entire world.

We are not even sure that Donald Trump is actually Donald Trump and not a body double trying to lead the entire World into WWIII. So— be advised.

As far as we, the American People are concerned, Trump is not verified even as the President of the United States of America, Incorporated, and as such has no proven position related to us or our country as Commander in Chief at this point in time.

If Britain wants war with Iran let Britain pay for it in blood and money.

Same answer to Rome.

We created the monster and we can destroy it.

The contract with the British Territorial United States Government is in abeyance for breach of trust and misuse of authority and violation of their service contracts.

Recall the fleet and call off any additional meddling in the Middle East or we will call upon the Guardians to pull the plug on all concerned.
