

**В А М А С**®

We have more than **36 years of experience** serving the industrial, hydraulic and pneumatic needs of the local and national market.

Our trajectory has positioned us as one of the **best distributors in Mexico** with a wide variety of **high-quality** products, and distinctly trained personnel.

Thus, making us **the best option for you.**

At Bamac, we are **growing alongside the Mexican industry.**

We are part of a great nation with a privileged location at the heart of North America, with the **United States and Canada as our main trading partners.**

With modern infrastructure, strategic ports, and a vibrant market, **Mexico has established itself as a key commercial hub** for the entire world.

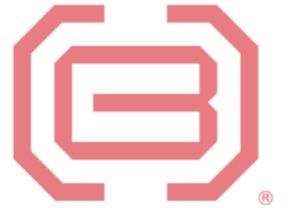

Just last year, a historic record in foreign direct investment was reached, and **today this country is the ideal bridge between global companies** and a continent full of opportunity.

# Our Distribution Center

Placed on a strategic location in the country, our **Distribution Center** located in Guadalajara, Jalisco allows us to offer you our **great spectrum of products with immediate availability.**

Our priority lies in a constant communication with our clients, in order to **fulfill their needs with anticipation.**

# National coverage

---

We have **16 branches**, distributed along 6 states in the country, and never-ending growth plans. Therefore, wherever you are, **BAMAC is near you.**

# Hydraulic hose crimpers and bench test

---

For us is greatly important to help develop your industrial systems, so we have the **high-tech machinery** necessary to do so.

- ❑ Service crimpers that go from 3/16" to 6" in diameter.  
**One of the only 6" crimpers in the country.**
- ❑ Coupling expander machines, that avoid contamination.
- ❑ Hydrostatic pressure testing machines.
- ❑ Metallic disc cutters, that leave no residue and allow us to give you **only the quantity of product that you need.**

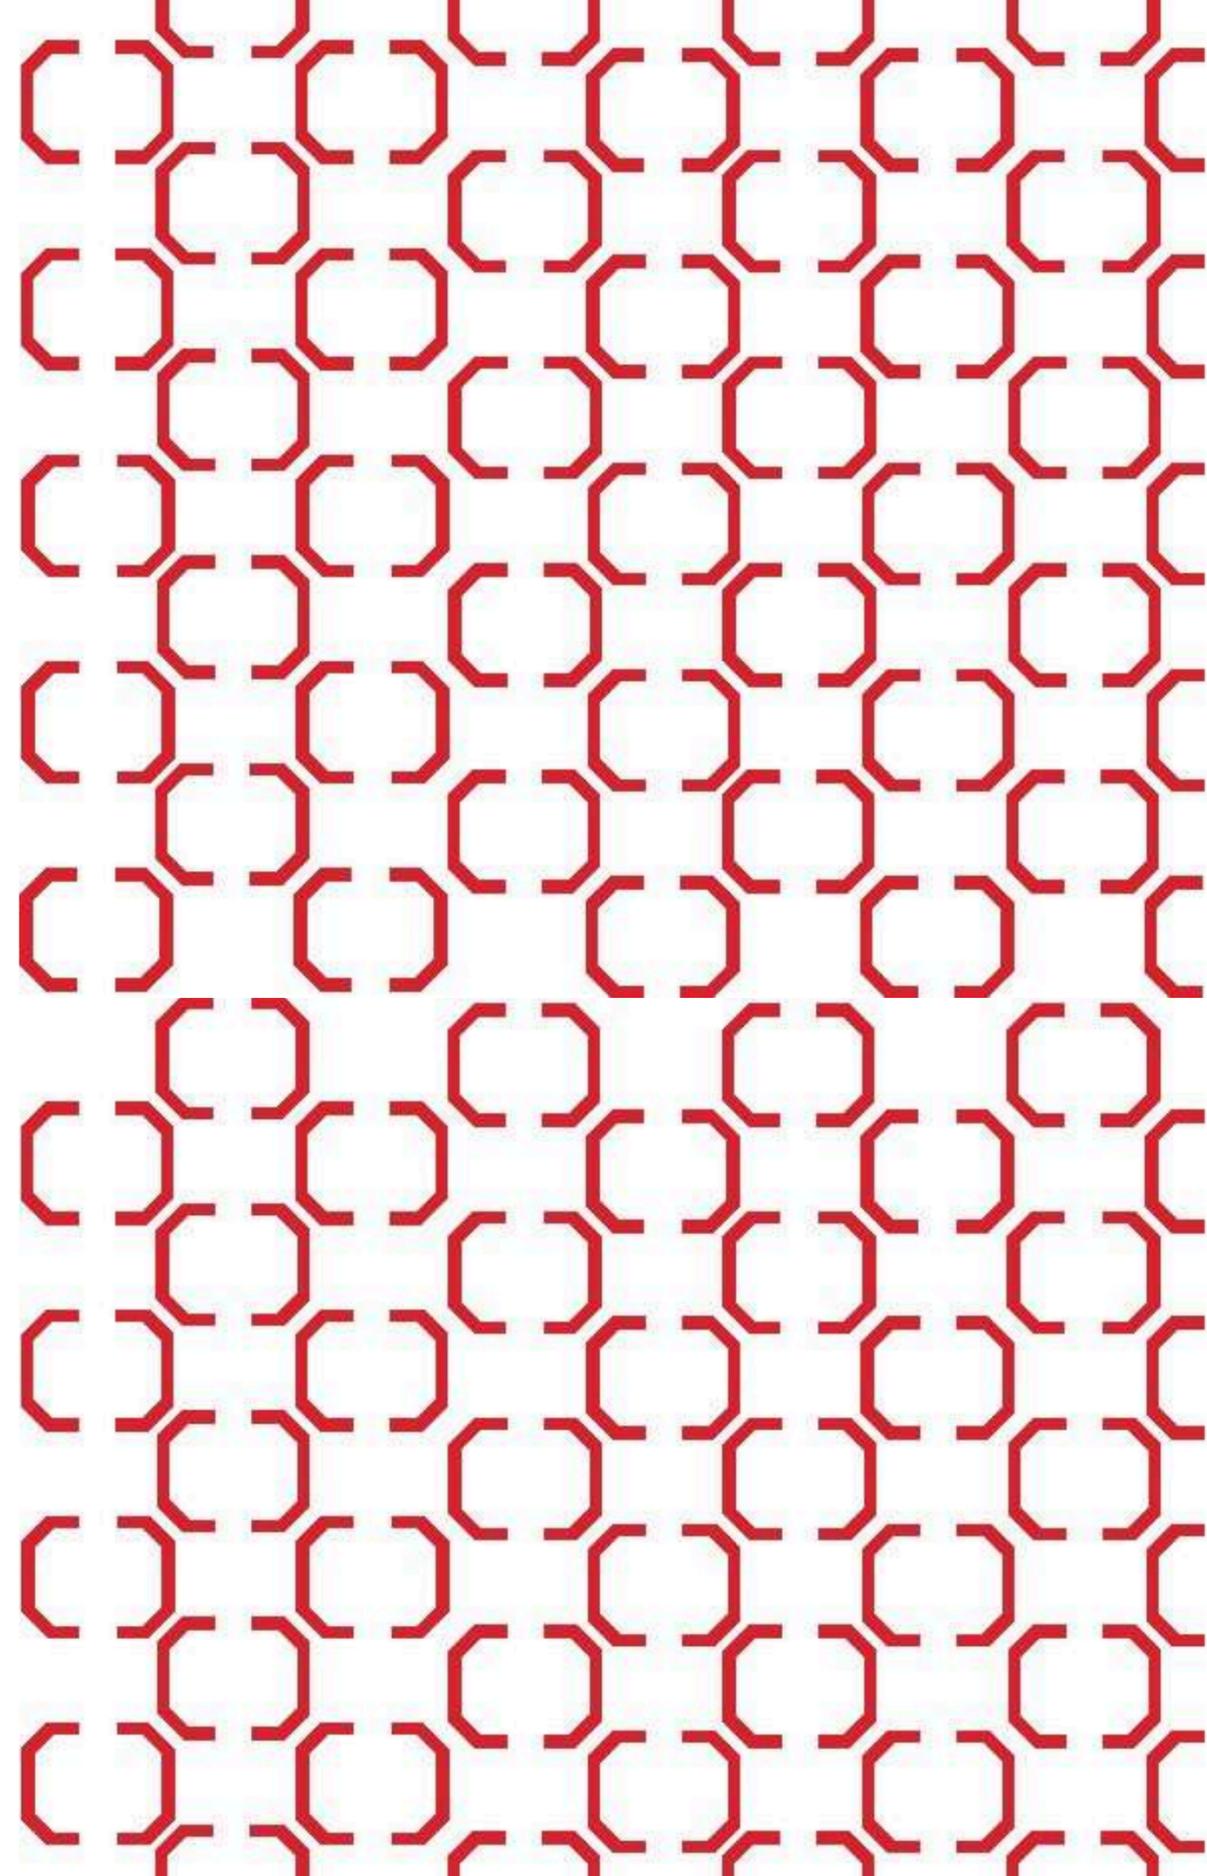

# Continuous personnel training

Our personnel is highly trained and ready to **address every one of your projects' needs**, focusing our efforts on the **quality** of products and processes along with safety, energy saving, productivity and environmental consciousness.

**Our products**

We also offer **high-quality hydraulic and industrial** hoses from our business partners.

### Industrial hoses:

- ❑ Concrete
- ❑ Petroleum and its derivatives
- ❑ Chemical products
- ❑ Food and beverage
- ❑ Special use
- ❑ Multiuse

### Hydraulic hoses:

- ❑ Low pressure
- ❑ Medium pressure
- ❑ High pressure
- ❑ Extreme pressure

# Fittings

---

BAMAC offers **different types and measurements** of fittings, in order to supply the ideal fitting for the hoses you have and the **specific needs of your projects.**

## Steel

- ☐ Reusable
- ☐ Permanent

## Brass

- ☐ Quick connect
- ☐ Compression

We also offer a **wide variety of hydraulic and industrial fittings and adapters** from other brands, to supply each and every need you may have.

- ❑ Reusable and permanent hydraulic fittings.
- ❑ Steel and brass adapters in different shapes and measurements.
- ❑ General, crimpable and clamping industrial fittings.

# Warranty and personalized ID

With our **full warranty system**, we change your hose, repair your fittings and/or crimping as you need, no questions asked, you just need to keep the provided stickers.

In BAMAC products **for 6 months after your purchase**, while external brands have a 3 months warranty.

We also offer **text personalization** in our warranty stickers, to facilitate their identification and better your industrial processes.

# Plastic spiral guards

---

To **protect your hoses and organize your projects**, we offer our plastic spiral guards in **different sizes and the exact quantity that you need**, which will facilitate the distribution and handling of your equipment.

- ❑ BMCGP - 20 mm
- ❑ BMCGP - 32 mm
- ❑ BMCGP - 40 mm
- ❑ BMCGP - 50 mm
- ❑ BMCGP - 90 mm
- ❑ BMCGP - 110 mm

# H300 Hydraulic Oil

We offer our own parafinic hydraulic oil of the **highest quality and premium performance.**

- ❑ High-tech anti-foaming and anti-wear aditives for hydraulic pumps protection.
- ❑ Ideal for the lubrication of old and modern hydraulic systems and heavy-duty machinery.

# 15W40 CI-4+ Oil

---

Our Latest Generation **Diesel Engine Oil.**

- ❑ Ideal in naturally aspirated, turbo-charged, four-stroke diesel engines with EGR system that work in the most severe conditions and where the use of a lubricant of the API CI-4 and CI4 Plus category is recommended.
- ❑ Thermal stability and oxidation-resistant, considerably reducing the formation of sludge deposits.

# Industrial Belts

---

For chain-based power transmission systems substitution, we offer the **best quality of high-resistance industrial belts** with different types of grip, finish and flexibility; with characteristics that widen the application possibilities.

# Pneumatic components

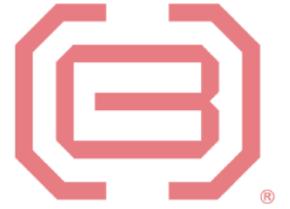

---

We have all the elements you need for the **main construction of pneumatic systems** for automatization and other projects, along with the necessary products for its **maintenance and air preparation.**

- ❑ Compressors
- ❑ Pipelines and hoses
  - ❑ Standard and metric
- ❑ Fittings
  - ❑ Standard and metric
- ❑ Filters
- ❑ Lubricators
- ❑ Regulators
- ❑ Actuators

# Complements

---

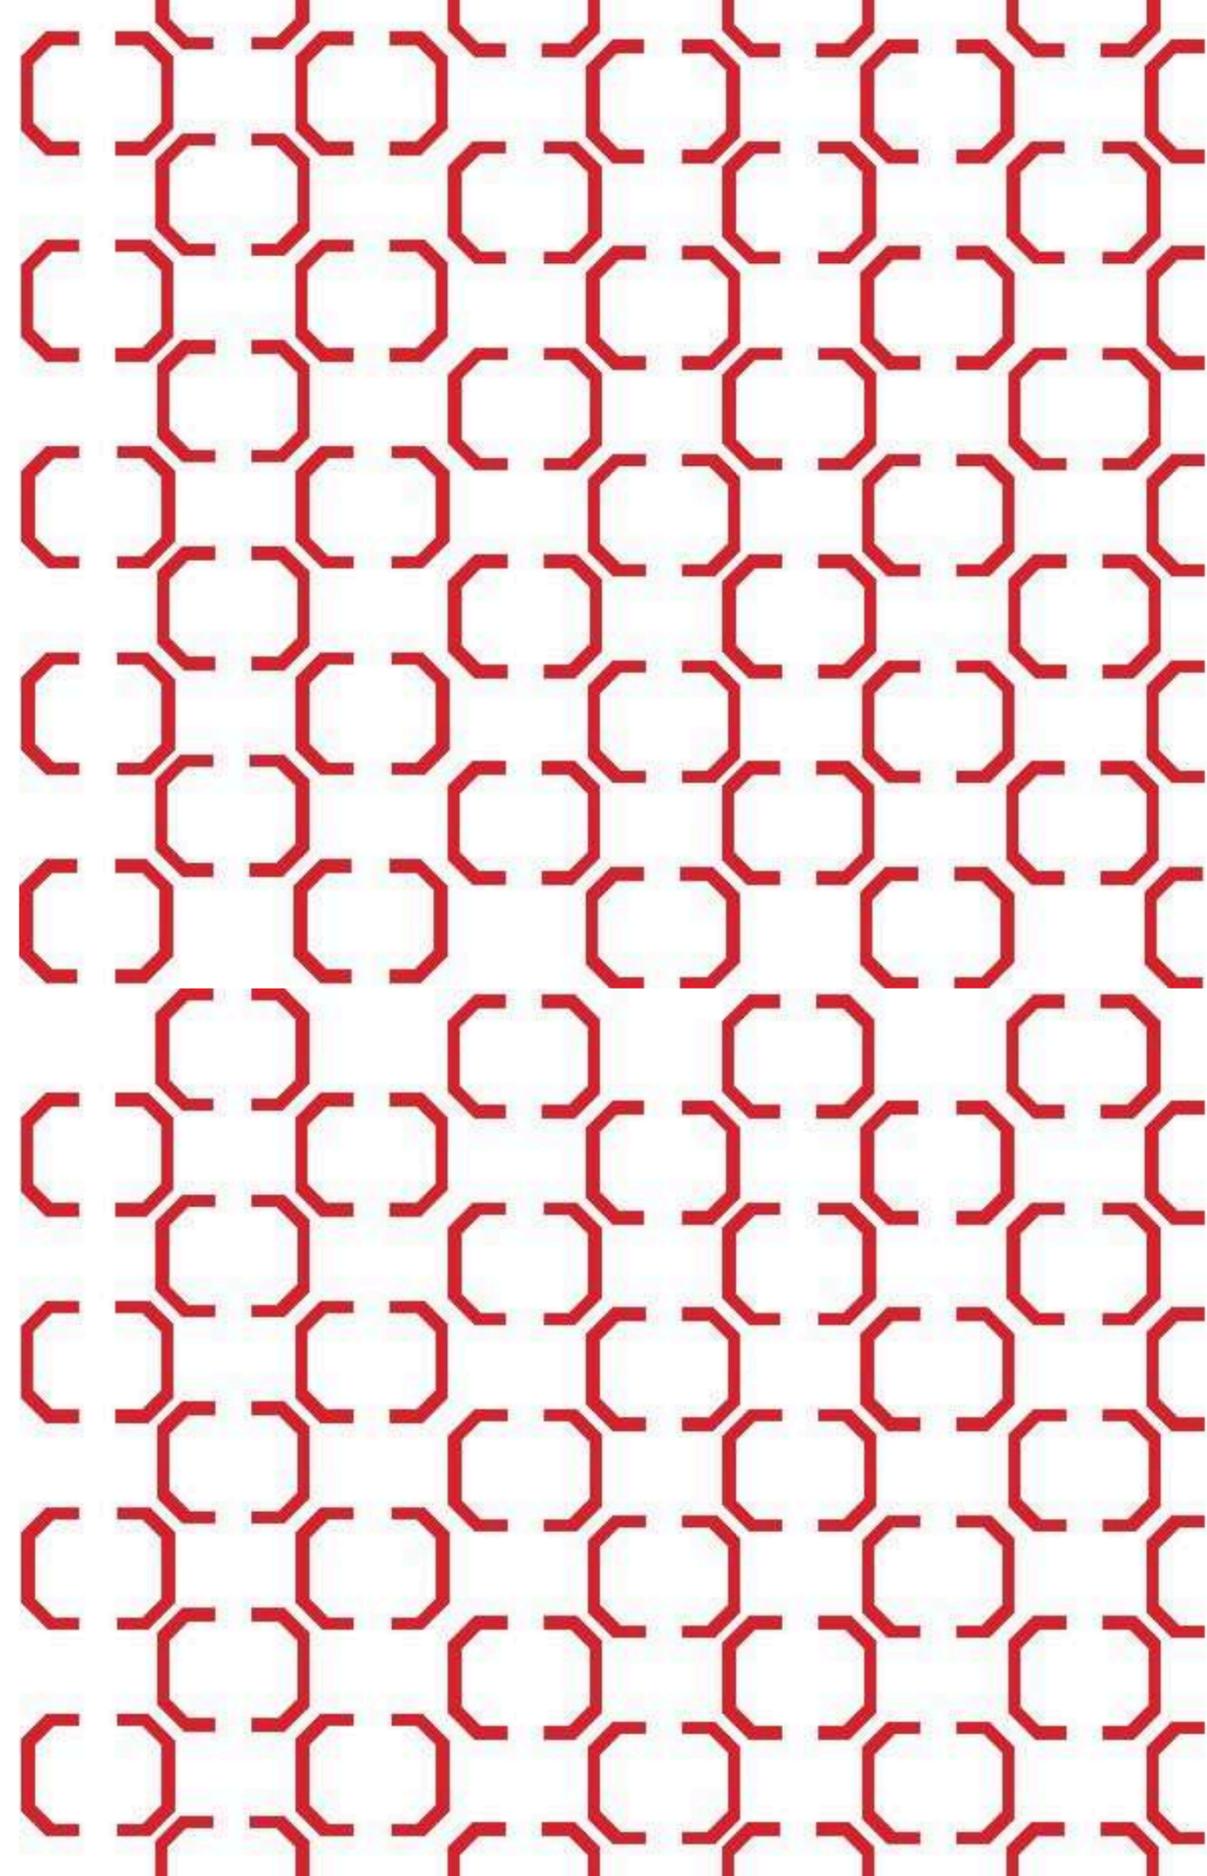

As we keep on understanding the market's changing needs, we have introduced different **complementing products, in order to offer solutions for every phase of your projects.** Such as:

- ❑ Tools
- ❑ Glue and anaerobic adhesives
- ❑ Pneumatic air bags
- ❑ Metallic and tarpaulin guards
- ❑ Cotton industrial rags

# **Our services**

# Hydraulic and pneumatic assembly

---

We offer you support in the **installation projects** of hydraulic and pneumatic systems, as we are committed with advising you and **ensuring the quality of our work**, products and processes.

# Mobile equipment

---

With our initiative of mobile equipment **we bring the machinery and specialists directly to you,** to train and help you on-site. From the inspection and problem identification, to solution recommendation with **correct application of techniques, machines and products, guaranteed.**

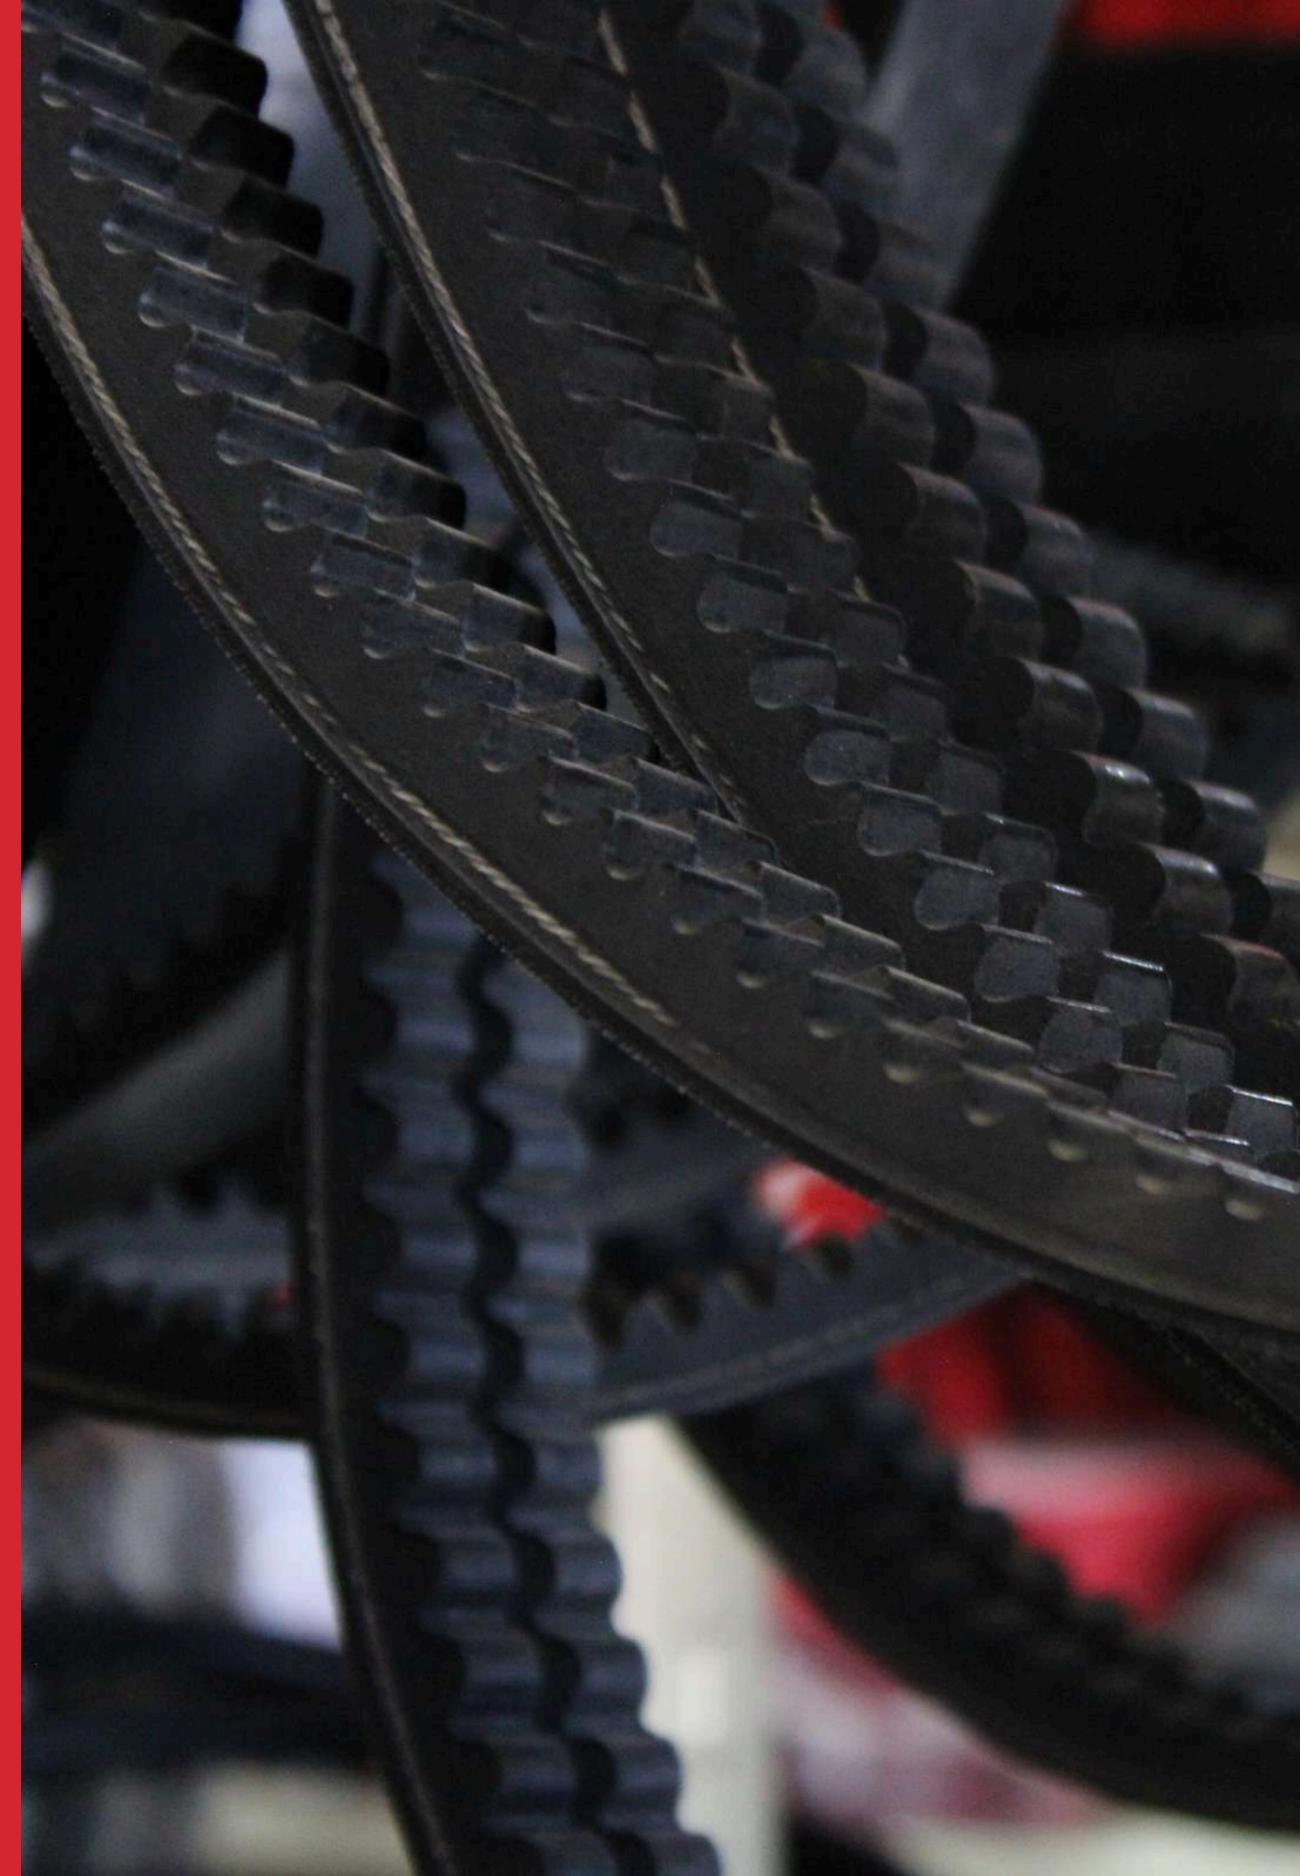

# BMC-Belt projects

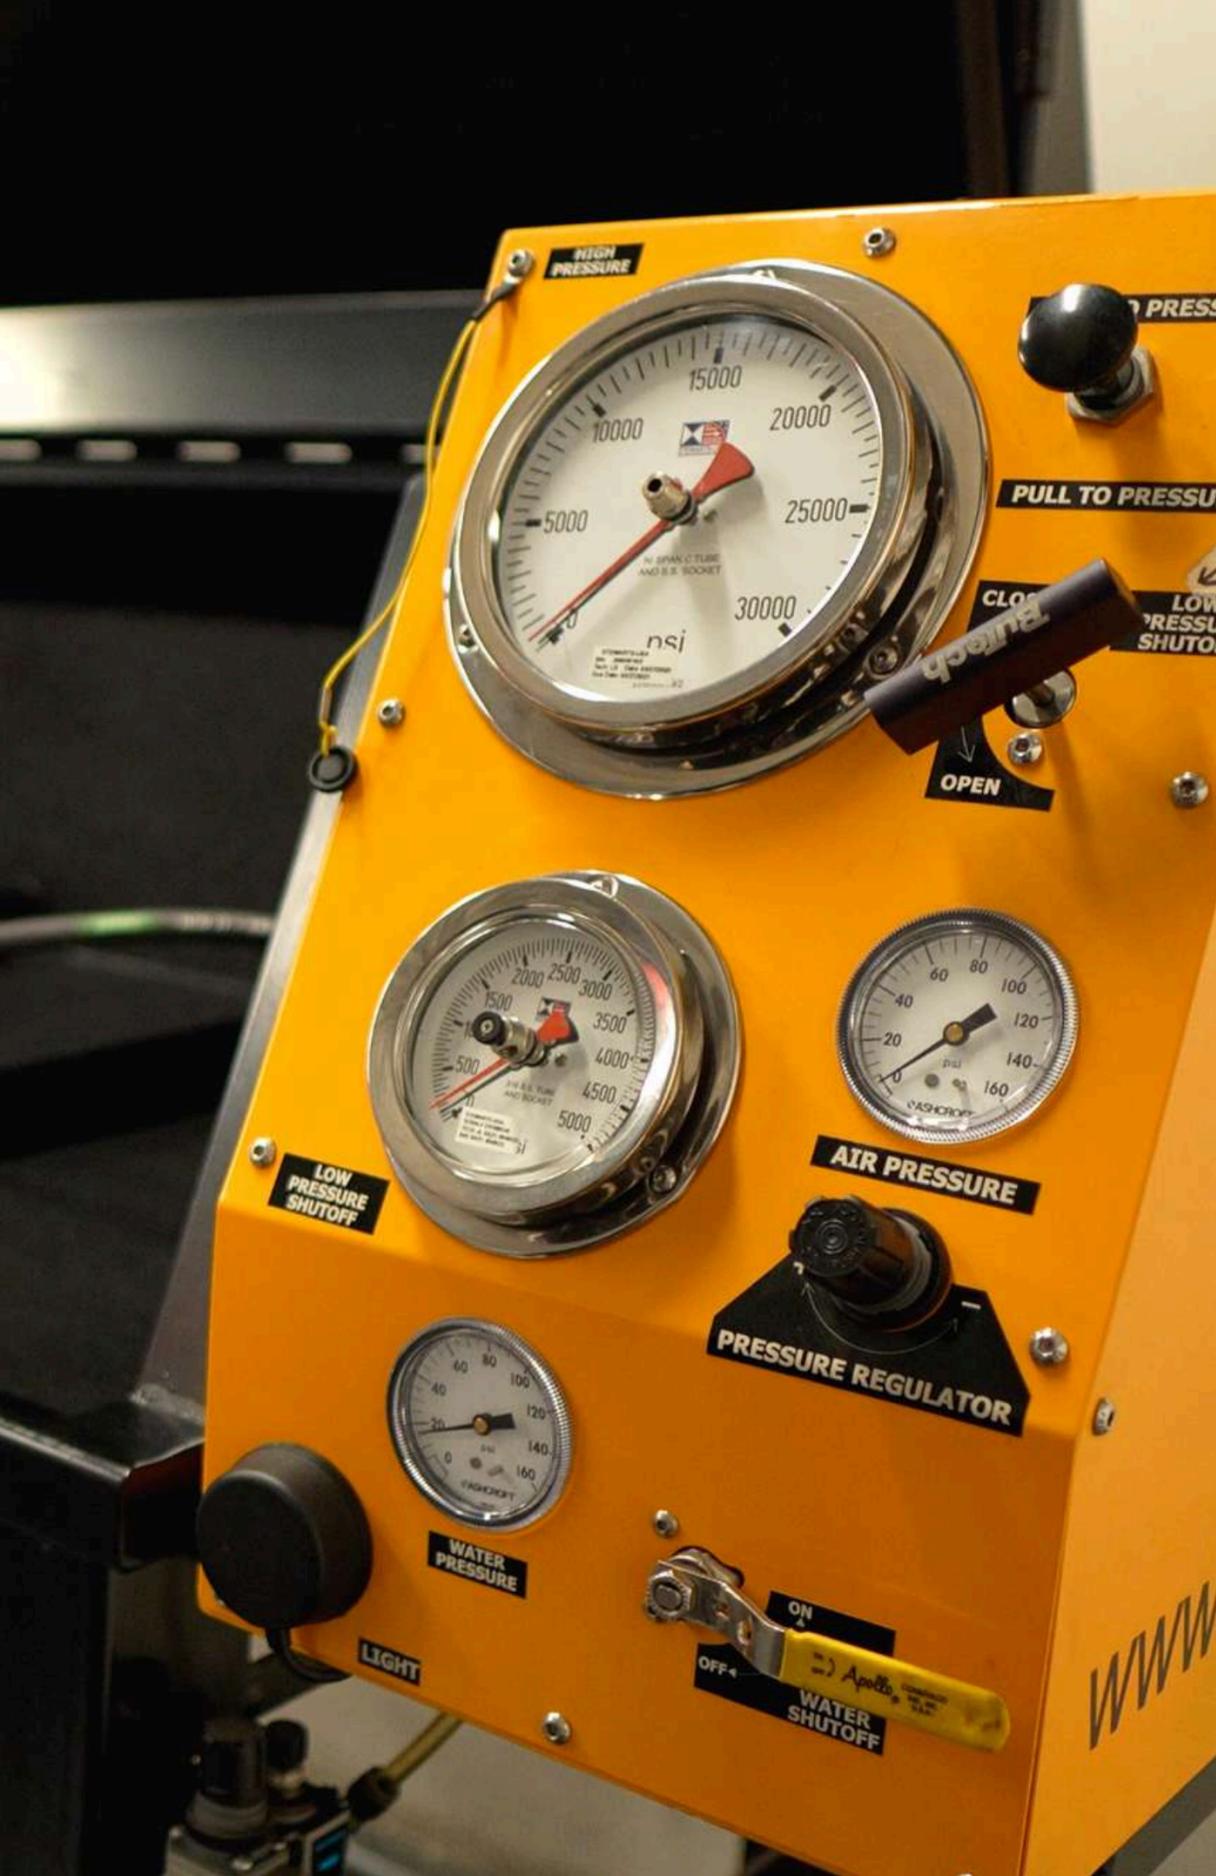

---

We do the **diagnosis and changing** of your chain-based power transmission systems, to an **industrial belt-based** one.

- ☐ More effectiveness
- ☐ Energy saving
- ☐ Quieter systems
- ☐ No oil required
- ☐ Maintenance-free

Along with the service, we have a warranty for the belts' **alignment and tensing** as needed, with **no extra fees.**

Thinking of the future...

# Bench testing

---

Our work's **transparency** is of the utmost importance, that's why we have a testing lab at your disposal, in which you will be able to verify the **quality of our products,** and the **effectiveness of its assembly.**

# Memberships and product certifications

---
