# SDAX Safe

Holding SDAX in the SDAX Safe effectively keeps SDAX off the public market during the locking period.

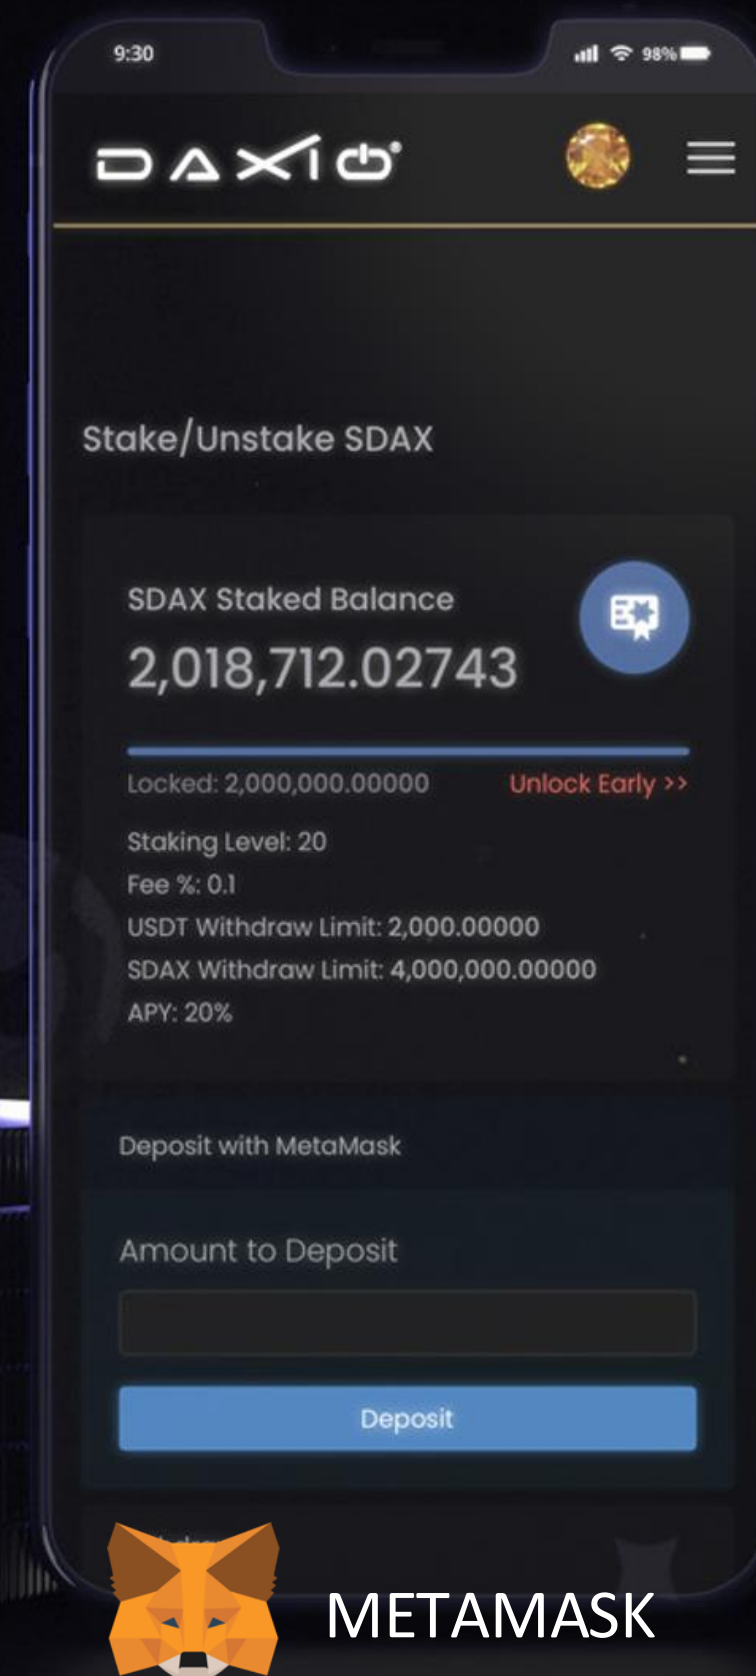

When you lock your SDAX this way you are awarded a Digital Reward. This reward is distributed in the form of SDAX.

The digital reward is distributed daily and can be transferred to your MetaMask wallet at your own convenience. You can un-lock your SDAX whenever you want. Un-locking SDAX prematurely will result in a 25% penalty.

The SDAX Safe yields an APY of up to 80% and the locking period is 365 days.

## Requirements to qualify for SDAX SAFE Reward:

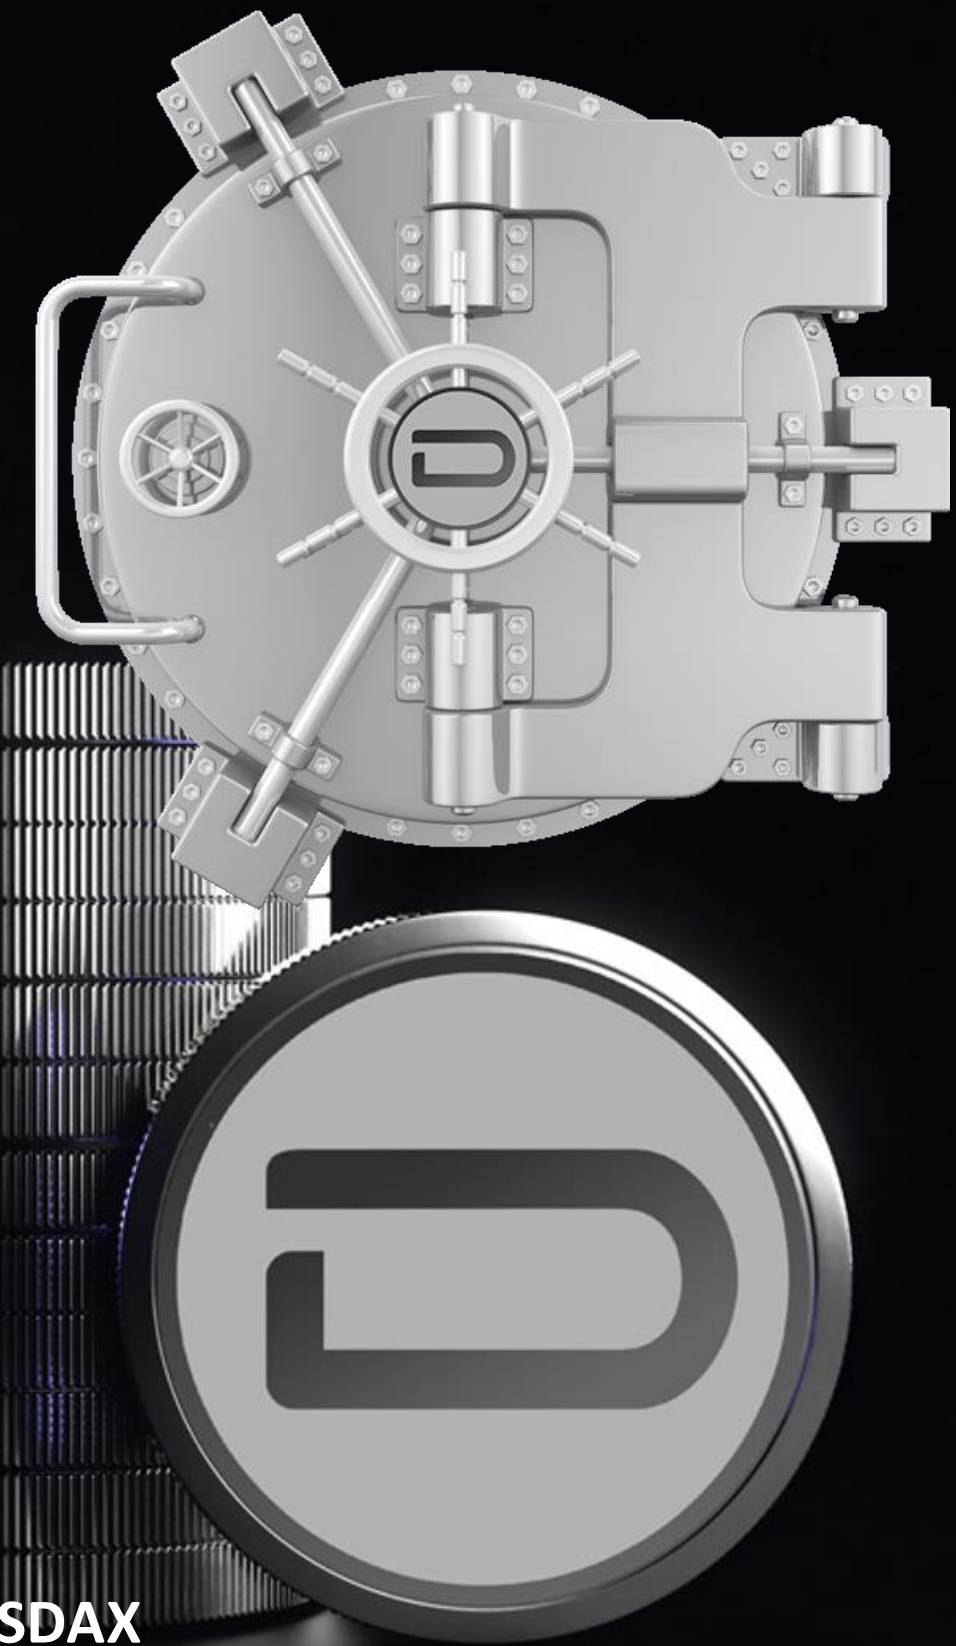

User must be registered and connected with Daxio and have deposited and locked atleast 100,000 SDAX in the SDAX SAFE.

# Metamask Wallet

Your entire Daxio experience is connected to your personal Metamask wallet.

This means that every time you are transacting on the platform you are connecting and signing every action with your own wallet. All your digital assets, NFTs and tokens are safely stored in your own personal MetaMask wallet.

It's important to know that you must hold SDAX and ETH in your MetaMask wallet to complete any purchases on the platform.

Holding ETH is important, since all transaction made on the Ethereum Blockchain requires GAS. Its also important to know that the Gas Fee fluctuates constantly during the day.

A screenshot of the Metamask website in a web browser. The browser's address bar shows 'https://metamask.io'. The website has a white background with a blue header containing the Metamask logo and navigation links: 'Features', 'Build', 'Resources', 'Learn', and a blue 'Download' button. The main content area features a large heading 'A crypto wallet & gateway to blockchain apps' in bold black text. Below this, a subheading reads 'Start exploring blockchain applications in seconds. Trusted by over 30 million users worldwide.' A blue button with the text 'Download for' and a Firefox icon is positioned below the subheading. To the right of the text is a graphic of a smartphone displaying the Metamask mobile app interface, which shows a balance of '0.1221 ETH' and a 'Buy' button. Below the main heading, there is a 'LEARN MORE' link with a downward arrow. At the bottom of the page, there is a section titled 'Buy, store, send and swap tokens' with a subheading 'Available as a browser extension and as a mobile app, MetaMask equips you with a key vault, secure login, token wallet, and token exchange—everything you need to manage your digital assets.' To the right of this text is a graphic of a hand holding a smartphone displaying the Metamask app interface, with colorful, abstract shapes floating around it. In the bottom left corner of the website, there is a small blue circular icon with a white 'M' inside.

# Performance Reward

Daxio rewards users who is promoting the Daxio Blockchain Project by generating NFT Minting & Sales.

This reward is distributed instantly and can be claimed to your MetaMask wallet at your own convenience.

The more effort you put in your activities, the more you can potentially be rewarded.

This reward is paid on all Sales taking place on the Daxio Platform.

## Requirements to qualify for Performance Reward:

User must be connected to Daxio to qualify for this Digital Reward.
