Sandra H. Marshall,

Thank you for trusting DeleteMyInfo to remove your private information from the world's top Data Broker sites. This is an important step in taking back your privacy and reducing your digital footprint so that people are not making money from your valuable data.

**Deleting your Data, Fast.** Below you will find your Initial Privacy Report which shows the data broker sites that we scanned, where we found your data, and the stage in which we are in deleting it. Some data brokers take longer to remove your information than others, but rest assured we are on it and will not stop until its is removed. We are the fastest in the industry.

**Continuous Protection.** Once you are completely removed from their websites, we will actively monitor these sites to ensure you remain off. Data Brokers will never stop scrapping, mining, and selling your information. Just because we delete you today, does not mean you will not reappear in 6 months. The good news is you are protected with DeleteMyInfo and we will make sure you stay off for good.

**What's next?** You will get 4 Privacy Reports per year giving you a snapshot of where we found your data and confirming that you have been deleted. In addition, we will push notifications to your profile when we find, opt-out, and delete your information. Finally, you will notice some improvements on the site over the coming 12-months as we grow the number of sites we scan, remove from, and monitor.

If you have any questions, comments or concerns please do not hesitate to reach out. We are here for you!
