Do you know these card games?

Use all 52 cards. Deal 7 cards to each player. When you have a pair, you play it. Each turn, one player asks another for a card. For example, "Can I have an 8?" If the other has it, they hand it over. If not, they say "Go fish." and the person draws a card. The person who runs out of cards wins.

Each person gets seven cards. One card is played face up. On your turn, you play a card of the same number or color as that card. If you don't have one, draw a card. When you get down to one card, you have to say "Uno." The person who runs out of cards first wins.
