PRESENTATION

BIO

Gwendal Le Coguic known on stage as **Bonnet Blanc**, is a Paris-based DJ whose musical identity weaves between electro, house and techno, delivering high-energy and party-driven vibes.

Beginner on the scene my main strength lies in my versatility: I can adapt to a wide variety of settings while maintaining a recognizable signature. Listening to the audience, I construct narrative sets where tension and release naturally intertwine.

My musical curiosity, sense of rhythm, *and ability to surprise* make me a DJ who knows how to seduce both melody lovers and thrill the most demanding dancers.

With a keen ear for both crowd motivation and atmospheric build-ups, I thrive on creating sets that bring people together, letting them dance but also feel the journey.

STYLE

I developed a universe that navigates between:

- house & nu disco
- electro tech house
- melodic techno

With a touch of groove and festive energy my sets are designed as true journeys, alternating atmospheric phases and powerful flights, where melody always takes center stage.

My selection is distinguished by a balance between current tracks, surprising remixes, and revisited classics, creating a coherent thread that carries the audience from start to finish.

INSPIRATION

My inspirations span across a large spectrum music making each set and each creation fueled by a ***diversity of influences***.

🌴 House brings groove, warmth, and a direct connection with the audience with figures like Jennifer Cardini, Kevin McKay or Bob Sinclar, to bring a more progressive and vocal touch, capable of transforming the dance floor into an immersive and melodic space.

⚡ On the electro side, inspiration comes as much from power as from sonic creativity with artists like Vitalic, Joachim Garraud or KINK who plays on the balance between minimalism and intensity, exploring unique and profound soundscapes.

🌌 Melodic techno is the perfect platform for creating hypnotic journeys with Argy, Kevin De Vries, Chris Avantgarde or Kölsch who stands out with their elegant and cinematic textures.

🔥 Finally, pure and raw techno fuels the physical and energetic aspect of the sets with Amélie Lens, Le Son du Placard or Zimmz to bring a modern intensity, with percussive and hypnotic rhythms and irresistible trance.

LE SYNDICAT DU BPM

LE SYNDICAT DU BPM

Le Syndicat du BPM is a community bringing together DJs, producers, organizers, and promoters around music culture.

With about 300 active members, we exchange ideas, collaborate, and develop joint projects, while also starting to organize our own events to keep the scene alive and create real opportunities.

I created this community and I manage it with the goal of structuring, connecting and growing the scene.

EXPERIENCES

EXPERIENCES

Coming from the Parisian scene, I already played in various settings: bars, terraces, intimate open-air venues, private parties and clubs.

These experiences have allowed me to refine my approach to audiences, learning to adapt my sets to the atmosphere and energy of the moment. My activity on SoundCloud also illustrates my desire to share my musical vision beyond live performance, by offering mixes and selections that reflect my identity and artistic evolution.

I regularly share videos on social media about DJing, including educational content, fun formats, and club moments. The goal is to educate, entertain, and connect the community, while also showing the behind-the-scenes realities of the profession.
