AUDIO & VIDEO SOLUTIONS

Serving the commercial market from small businesses to large scale companies, healthcare and educational institutions, houses of worship and entertainment venues, the hospitality industry, governmental agencies, and the judicial system. We specialize in the integration of audio, video, lighting, computer, and control solutions.

What separates us from our competitor is our position as a trusted AV partner. Our clients trust us to be safe, lean, responsive, and effective in our processes and to deliver quick, efficient and complete AV solutions. Any AV company can install an AV system, but it takes an AV partner to actively evaluate areas of improvement and recommend options that will benefit your metrics. It's the difference between having an AV system and an AV solution that works for you."

We provide quality and cost-effective system design, sales, integration, installation, and service for the following solutions

- » **Video Conferencing**
- » **Board Room Solution**
- » **Speakers, Amplifiers**
- » **Wireless audio**
- » **Home Theatres & Auditoriums**
- » **Smart class solutions**

HOME AUTOMATION IBMS POWER BACKUP SOLUTIONS

Home Automation

"Growing technologically is a modern-day trend. To fulfill this, automation is playing a significant role not only in computation but also in the infrastructure sphere. The industry demands security and reliability when it has eyes for development. Having built a workplace that is 'smart' will save you from the chaos of losses due to failure or security.

IBMS (Integrated Building Management Systems)

A well-maintained building management inspires the occupant, prevents any discrepancies and increases the operation efficiency of the people in the vicinity. There are series of building systems management and matrix systems that can be fitted into the building structure."

We integrate complete building services starting from HVAC, Fire Safety, Electronic security System, Water Management, Parking Management, Ventilation management, electrical management, Energy Metering and CAM Billing with focus on minimum manual intervention and maximum automation, and for its optimum performance, we have delivered our expertise IBMS solutions for IT& ITES office space, Malls, Hospitals, Pharma & Clean rooms etc.

Power Backup Solutions

"With today's increasingly complex facilities and interconnected networks, the number of problems that can result from poor power quality are significant, this is where our role comes in protecting your equipment.

Comprehensive power backup solution is to provide 100 percent business process uptime & availability. It enables a business to run Efficiently, Continuously, Reliable & Secured.

We can support you in improving your uptime with a full range of innovative uninterruptible power supplies (UPS) and future-proof, integrated UPS systems, that will cover the backup power needs of your IT infrastructure, from small computer rooms at the network edge to enterprise and hyper scale data centers."

- » No Data Loss
- » Reliable Power
- » Low Maintenance Costs

- » No Fuel Costs
- » No environmental pollution caused by noise, air or liquid which is common with generators

Client Testimonials

In general, my experience with xerox service and technical support has been outstanding. Service calls have been answered promptly, and technical support has been friendly and competent.

Great service that's on time per agreed upon schedule. The communication staff and the service technician are always willing to work around the customer's schedule.

Indoteq has done a remarkable job. Team has accomplished the work in a professional and thorough manner and on schedule.

The support I received was thorough and timely and my issue was addressed with a single interaction. Awesome!

Great place to have each and every office solution right from simple mouse to printers to complete AV solutions ... One stop solution provider..

Indoteq manage the design and develop a range of AV projects for us. they act like an extended part of the team...

Its my pleasure to have worked with indoteq on our IT infrastructure project. They are well informed and experienced enough to suggest the best available options for the project.

The service we received by Indoteq was excellent!
