

JASON WU

<https://jasonwu.cc>

(+1) 404 234 7381 ◊ jasonwu@purdue.edu

EMPLOYMENT

Purdue University January 2026 - Present

Assistant Professor, Department of Computer Science

Apple Inc. September 2024 - January 2026

Research Scientist

- Built AI systems that understand and operate UIs at a human level
- Built technology to enable automated generation of accessible and intelligent UIs

CMU Human-Computer Interaction Institute August 2018 - August 2024

Graduate Research Assistant

- Developed accessible interactions for novel computing devices and modalities
- Researched methods for automatically detecting and addressing accessibility needs in mobile devices
- Explored sensing techniques for enabling intelligent and interactive environments

Apple Inc. December 2022 - September 2024

Machine Learning Research Intern

- Developed machine learning models for predicting semantics from user interfaces
- Developed systems for improving the accessibility and usability of mobile apps

Meta Platforms Inc. August 2022 - December 2022

Research Scientist Intern

- Researched user interfaces for augmented reality and virtual reality
- Applied computational methods to interaction and interface design

Apple Inc. April 2019 - July 2022

Machine Learning + Accessibility Research Engineer (Contractor)

- Prototyped systems for improving accessibility of mobile technologies
- Researched machine learning and sensor-driven interaction techniques

Google AI Perception Team June 2018 - August 2018

Software Engineering Intern, Research Role

- Prototyped novel interfaces for subtle control of wearable devices
- Integrated audio accessibility features into wearable devices

Georgia Tech Ubicomp Lab January 2016 - May 2018

Undergraduate Researcher

- Explored methods for inferring lung-health from smartphone data using passive sensing
- Researched novel input interactions for smartwatches and head worn displays
- Served as mentor for graduate research group that explored input interfaces for wearable computers

USC Institute for Creative Technologies June 2017 - August 2017

Undergraduate Research Intern

- Trained deep learning models for visual affect recognition

- Integrated affective language models, character animation system, and deep vision models to create a mobile virtual human system

Agency Oasis

Web Development Intern

June 2015 - August 2015

- Worked with C#, SQL Server, and Sitecore, an enterprise-grade .NET CMS
- Wrote software to automate and import Harvest timesheet data into Excel

AWARDS & HONORS

IUI Best Paper (2024)

Heidelberg Laureate Forum Young Researcher (2023)

CHI Best Paper Honorable Mention (2023)

CHI Best Paper (2021)

W4A Best Technical Paper (2021)

CHI Best Paper Honorable Mention (2020)

Fast Company Innovation by Design Student Finalist (2020)

NSF Graduate Research Fellowship (2019-2024)

Georgia Tech College of Computing Outstanding Undergraduate Researcher (2018)

HackGT - Best Microsoft Technology Award (2017)

MARTAHack - Implementation Prize Runner Up (2017)

HackStart - First Place Winner (2015)

Zell-Miller Scholarship (2015-2018)

NMSQT Georgia Pacific Corporate Scholarship (2015-2018)

EDUCATION

Carnegie Mellon University

August 2018 - August 2024

Advisor: Jeffrey Bigham

Ph.D. Human-Computer Interaction

Human-Computer Interaction Institute

Carnegie Mellon University

May 2022

Advisor: Jeffrey Bigham

Master's of Human-Computer Interaction

Human-Computer Interaction Institute

Georgia Institute of Technology

August 2015 - May 2018

Advisors: Gregory Abowd, Rosa Arriaga, Thad Starner, Thomas Ploetz

B.S. Computer Science (Intelligence & Information Internetworks)

Highest Honors

DISSERTATIONS

Computational Understanding of User Interfaces

July 2024

Ph.D. Dissertation

Carnegie Mellon University

Described computational and data-driven approaches to understand UI semantics, functionality, and design for accessibility, software testing, and UI automation applications.

Synchronous Interfaces for Wearable Computers

May 2018

Undergraduate Dissertation

Georgia Institute of Technology

Researched synchronous interfaces for wearable computers, which are a type of input system that allows users to express intent by performing an action in sync with stimuli presented to them

JOURNAL PUBLICATIONS

[J.3] **Towards Automated Accessibility Report Generation for Mobile Apps**
ACM Transactions on Computer-Human Interaction 2024

TEACHING

Purdue CS59200-CI1 Computational Interaction <i>Instructor</i>	January 2026 - May 2026
--	-------------------------

CMU 05-410/05-610 User-Centered Research & Evaluation <i>Graduate Teaching Assistant</i>	January 2022 - May 2022
--	-------------------------

- Taught lab section of 20 students
- Helped prepare teaching materials for user-centered research
- Helped create and grade assignments and tests

CMU 05-430/05-630 Programming User Interfaces <i>Graduate Teaching Assistant</i>	August 2021 - December 2021
--	-----------------------------

- Taught lab section of 20 students
- Helped prepare teaching materials for web-based UI development
- Helped create and grade assignments and tests

Georgia Tech CS4605/CS7470 Mobile & Ubiquitous Computing January 2018 - May 2018
Project Mentor

- Mentored two groups of 4 students on projects related to mobile and ubiquitous computing
- Guided student-led course projects on input techniques for wearables and mobile games for asthma
- One group project resulted in a publication to international peer-reviewed conference (ISWC)

VOLUNTEERING & SERVICE

Organizing Committee (Student Innovation Contest Co-chair) for UIST 2023

Organizing Committee (Web Co-chair) for ASSETS 2022

Organizing Committee UIST 2025 Workshop: Facilitating Longitudinal Interaction Studies of AI Systems

Program Committee for ASSETS 2025

Program Committee for DIS 2026

Program Committee for CHI 2025, 2026

Program Committee for UIST 2024, 2025, 2026

Program Committee for FAccT 2023

Program Committee for CHI Late-Breaking Work 2022, 2023

Program Committee for CHI 2022 Workshop: Computational Approaches for Understanding, Generating, and Adapting User Interfaces

Program Committee for IUI 2025 Workshop: Mixed-Initiative Next-gen Design (MIND)

Area Chair for ICML 2023 Workshop: Artificial Intelligence & Human-Computer Interaction

Volunteer for CMU HCII PhD Application Support Program 2020, 2021, 2022

Reviewer for COLM 2025

Reviewer for NeurIPS Workshop on Human Evaluation of Generative Models 2022

Reviewer for TOCHI 2022, 2024, 2025, 2026

Reviewer for NeurIPS Datasets and Benchmarks 2022

Reviewer for IMWUT 2019, 2022

Reviewer for DIS 2022

Reviewer for CHI 2020, 2021, 2022*, 2023, 2024

Reviewer for CHI Late-Breaking Work 2020, 2021, 2022, 2023

Reviewer for EICS 2020, 2021, 2022

Reviewer for International Journal of Human-Computer Studies 2021

Reviewer for IUI 2020

Reviewer for UIST 2019, 2020*, 2021*, 2022**, 2023, 2024

Reviewer for SIGGRAPH Posters 2023, 2024

Student Volunteer for ASSETS 2019

Student Volunteer for Ubicomp 2018
