With everything from unrivaled natural beauty and world-class attractions to major sports teams, a thriving arts and culture scene, and beyond, there's always something to do in Seattle.

Homeowners are responsible for researching to their own satisfaction the qualifications and background of vendors. The Washington State Department of Labor and Industries maintains a publicly accessible database on contractors. Other state agencies such as the Washington Department of Licensing maintain databases for many other licensed professionals. Although Windermere brokers may assist homeowners with locating and selecting third party vendors, such as inspectors or contractors, Windermere cannot guarantee or be responsible for the services provided by those third party vendors.
