# JOSEPH LOVEWELL
## Petroleum Engineer

---

Responsibilities include providing a wide variety of petroleum engineering, underground storage engineering and mining engineering consulting services to oil and gas companies, gas transmission companies, natural gas and liquids storage companies, banks, trusts and institutional investors.

## Education

---

Texas A&M University (USA) 2019 – Bachelor of Science in Petroleum Engineering

## Previous Positions

---

**Peloton Computer Enterprises** Katy, Texas, USA                    [2020 - 2022]

ProdView Implementation Consultant  Performed ProdView implementations to assist with field production monitoring, engineering analysis, and corporate roll up reporting.  Designed and configured flow networks based on allocation flowchart diagrams, spreadsheets, and databases by oil & gas operators.  Provided training for pumpers and office personnel on how to enter, report, plot, and QAQC data in their production system.  Created custom reports with Report Builder, SQL, and connections to snowflake databases.  Ensured all regulatory reporting requirements were met for each client.  Integrated SCADA systems into ProdView and loaded historical production data.
