

NIRNAETH

Black Death Metal
Pressbook 2018

NIRNAETH haunts the extreme music scene with a devastating Black Death Metal since 2002.

Thanks to 2 albums 'Thrown Athwart The Darkness' and 'Splendour of the Abyss (Great Dane Records / distributed by Season Of Mist), the band performed over 100 gigs alongside with bands such as Obituary, Inquisition, Rotting Christ, Arkona, Nunslaughter, and more.

With the arrival of a new drummer in 2015 NIRNAETH recorded the single 'Nihil In Me' with the complicity of the label Kaotoxin, followed by a pro video clip. The song figures on a limited edition vinyl in July 2016.

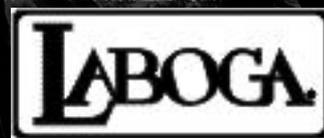

NIRNAETH recruited an additional guitarist in 2017 and the third album, "From Shadow To Flesh" was produced. This concept album marks a turning point in the evolution of the quintet. Drums were recorded by Phil Reinhalter at Psykron Studio. the mix and mastering were done by Deha at Forbidden Frequencies Studio. The visual is signed by Above Chaos (Tsjuder, Inquisition, Melechesh).

"From Shadow To Flesh" is released by Malpermesita records in sept 2018.

Tracklisting

01. Dying of the day

The entity describes its genesis and its expectations within the Crater. It sets out its intentions.

02. Been There Before

The protagonist always makes the same dream where he wanders in the labyrinth of his memories. Through the cracks of one of the walls of the labyrinth he sees a well or hole - the Crater. Someone calls him for help. But when he finally reaches the Crater he sees nobody.

03. The Crater

The entity describes the Crater and the fascination it exercises over the protagonist, who can no longer dispense with contemplation. The Crater obsesses the protagonist.

04. Cursed

The protagonist begins to feel harassed by the entity. He no longer feels "master in its own house".

05. In Nomine Ego

The protagonist struggles to maintain control of his body. He no longer recognizes the echoes of his own voice.

06. Nihil In Me

Following the repeated assaults of the entity the protagonist decides to abandon his body. He prefers to die rather than let the entity control it.

07. Once A Shadow

The protagonist thought he was going to die: he now finds himself a prisoner in the depths of the Crater. The entity reveals itself, it was its reflection, its shadow. The final part is a palindrome for one of the guitars, symbolizing the transition between the protagonist and the entity.

08. Possession

The entity expresses its exaltation to take possession of a body.

09. Forgotten and chained

The protagonist describes his ordeal, chained to the bottom of the Crater.
