**Lead Forecast Meteorologist**

**WeatherWorks, LLC**

**908 867 8350**

**MattPotter@WeatherWorksInc.com**

### **Professional Experience**

**Weather Works, LLC – Hackettstown, NJ**

**Past Weather Manager: June 2024 – Present**

**Lead Forecast Meteorologist: June 2024 – Present**

**Manager of Forensic Development: April 2018 – June 2018**

**Forensic Meteorologist: April 2015 – April 2018**

**Meteorologist: August 2012 – April 2015**

Oversees the Data and Stats and Forensic Departments, which includes developing yearly growth plans and revenue goals, reviewing inbound requests, implementing workflow protocols, setting timing and pricing expectations with clients, delegating work and responding to disputes or inquires.

Authors forensic meteorology reports (weather reconstruction and historical research) for law firms (defense and plaintiff), insurance companies, contractors, and private individuals. Cases primarily worked on include slip and falls.

Deposes and serves as a weather expert in court.

Supervised and trained staff Meteorologists on the production of forensic meteorology reports.

Prepares weather forecasts, storm alerts, post-storm summaries for road departments, snow plowing contractors, landscapers, fortune 500 companies, etc. These clients are also contacted and briefed in during severe and/or unusual weather.

Oversaw and produced Certified Snowfall Totals for over 700 locations throughout Pennsylvania for snow removal companies and property managers after each winter weather event using data provided by trained weather spotters.

### **H.T. Lyons – Allentown, PA**

**Certified TAB Technician: May 2021 – June 2024**

**TAB Technician Assistant: September 2018 – May 2021**

Conducted testing, adjusting, and balancing (TAB) of air and/or hydronic environmental systems for commercial buildings, schools, pharmaceuticals and hospitals. Testing was conducted by utilizing specialized equipment to measure and analyze airflow/waterflow patterns within a system.

Created detailed reports documenting all balancing activities.

Collaborated with engineers and contractors to ensure proper installation and functioning of air and hydronic systems.

## **University at Albany – Albany, NY**
