Turn Foot Traffic into Repeat Customers Without Advertising

#1 REAL-TIME CUSTOMER ENGAGEMENT SOLUTION

Whisp empowers businesses to thrive in real time. As the only 2-way QR-to-SMS opt-in technology that instantly captures cell numbers — without forms — Whisp ensures you're always a step ahead.

The Problem

You work hard to attract customers to your physical location, but once they leave, you lose the ability to bring them back. Digital ads are expensive, and rented audiences (like social media followers) don't guarantee results.

The Solution

Whisp helps you OWN your customer list by capturing visitor contact information (TCPA compliant) so you can retarget customers via SMS — no expensive ads, no third parties, just real, direct relationships with your audience.

The Results

- Build a high-value customer contact list.
- Increase repeat visits and sales without ad costs.
- Create a direct, ongoing relationship with your customers.

How it Works

1. **Capture Foot Traffic:** Whisp seamlessly collects customer phone numbers in-store (e.g., through a QR code or opt-in prompts).
2. **Build Your Contact List:** You OWN this list, and it's TCPA compliant.
3. **Retarget via SMS:** Send timely promotions, updates, and reminders directly to customers.

Why Small Businesses Love Whisp

✓ **No Need to Advertise:** Save money by retargeting your OWN contacts instead of renting audiences.
✓ **Boost Repeat Business:** Stay top-of-mind and drive repeat visits with SMS campaigns.
✓ **Easy Setup:** Quick implementation for any small business—no tech headaches.
✓ **100% Compliant:** Capture and connect with consented contacts the right way.

Real-Time Engagement, Anytime, Anywhere

Turn every moment into an opportunity to strengthen loyalty. Research shows that increasing customer retention by just 5% can boost profits by 25% to 95%. By responding to customer needs in real time, you build trust and create long-lasting relationships that drive lifetime value.

Own Your Audience. Grow Your Business.

Seamless Loyalty Program Enrollment

Whisp QR codes simplify loyalty program sign-ups by linking directly to personalized SMS opt-ins or landing pages. Customers can join with a quick scan, making it effortless to start earning rewards.

Exclusive Offers and Discounts

Provide instant access to special promotions or exclusive discounts when customers scan a QR code. This creates a sense of exclusivity and incentivizes repeat visits.

Personalized Follow-Ups

Whisp QR codes trigger SMS-based follow-ups tailored to each customer. Personalized communication fosters a stronger connection, encouraging them to return.

Feedback Collection and Insights

Engage customers by asking for quick feedback via QR codes that lead to surveys or review platforms. Show you value their input and use insights to improve their experience.

Reward Redemption Made Easy

Integrate QR codes with your loyalty platform to simplify how customers redeem points or claim rewards. This convenience keeps them engaged and motivated to continue their loyalty journey.

Cross-Promotion Opportunities

Use QR codes to promote related services or partnerships. For example, link to special deals with local businesses or highlight complementary offerings, creating a community-centered loyalty ecosystem.

Empowering Small Businesses to Own Their Contact Lists

Ready to gain a competitive advantage?

Whisp makes it simple to turn every foot in the door into a loyal repeat customer.

Smart Whisp QR Codes & Links

- Promote your brand and share content with Smart QR codes
- Increase engagement and cross promote channels
- Access daily opt-in analytics per store or employee

- Weekly post texting included (rates apply)
- Include Smart QR Codes in store to increase loyalty
- Drive more action and 2-way conversations without forms

- Include link in social bios or Linktree to eliminate DM's
- Add Smart QR Codes to your website and ads
- TCPA compliant with protected opt-in features

How Whisp Opt-in Works

1 User scans Smart Whisp QR Code or clicks on the Social Media Smart Whisp Link.

2 User receives a prefilled text with your custom message and CTA.

3 User clicks SEND.
(TCPA counts the SEND as consent to be contacted)

4 User's 100% accurate mobile phone number is directly imported into your contact list.

5 You now have ability to contact user via text, call, email or direct mail.

Scan to try Whisp for yourself.
