The Problem

26 Seconds

is all it takes for the toxic chemicals in your personal care products to enter your skin, bloodstream, and organs.

200 Toxins by 9am

The average person puts 120-200 toxic ingredients in their system every single morning by way of their toxic shower, hair and skin care products.

Most products legally contain ingredients that cause hormone disruption, organ toxicity and cancer.

The Solution

Organic and ToxicFree® products by Essanté Organics. Nothing else is permitted. See labels for organic ingredients.

The Toxic 10 & More

Are your oral, body, baby & home care products toxic?

We're pulling back the shower curtain and revealing 10 of over 10,000 dangerous ingredients. Most companies legally use cheap, toxic fillers to increase profits even though they harm the consumer. Avoid these proven carcinogens, neurotoxins, reproductive toxins and hormone disruptors. Ingredients, whether healthy or harmful, are absorbed into your skin, bloodstream and organs in 26 seconds.

1

PHENOXYETHANOL (OR ETHYLHEXYLGLYCERIN)

Function: synthetic preservative to create a long shelf life, "new" substitute for parabens.

Hazards: may cause chromosomal changes, organ toxicity, damage to brain, nervous system and reproductive system.

Inside: body care products, cosmetics, etc.

Essanté Organics only uses plants & essential oils to stop bacteria & create a 5 year shelf life.

2

POLYSORBATE 20-80 (OFTEN CONTAMINATED WITH ETHYLENE OXIDE, 1,4-DIOXANE)

Function: emulsifier, de-foamer, to create creaminess without separation.

Hazards: may cause reproductive effects, cancer and mutations based on animal testing.

Inside: vitamins, soaps, shampoos, creams, food, etc.

Essanté Organics only uses Mother Nature's ingredients to create rich creaminess, organically.

3

PROPYLENE GLYCOL OR POLYETHYLENE GLYCOL (PEGS)

Function: petroleum based thickeners and penetration enhancers to add creaminess.

Hazards: carcinogen, systemic toxicity, linked to lymphatic, breast, brain cancers.

Inside: shampoos, conditioners, lotions, deodorants, etc.

Essanté Organics only uses plant and mineral based ingredients that deliver true health benefits.

4

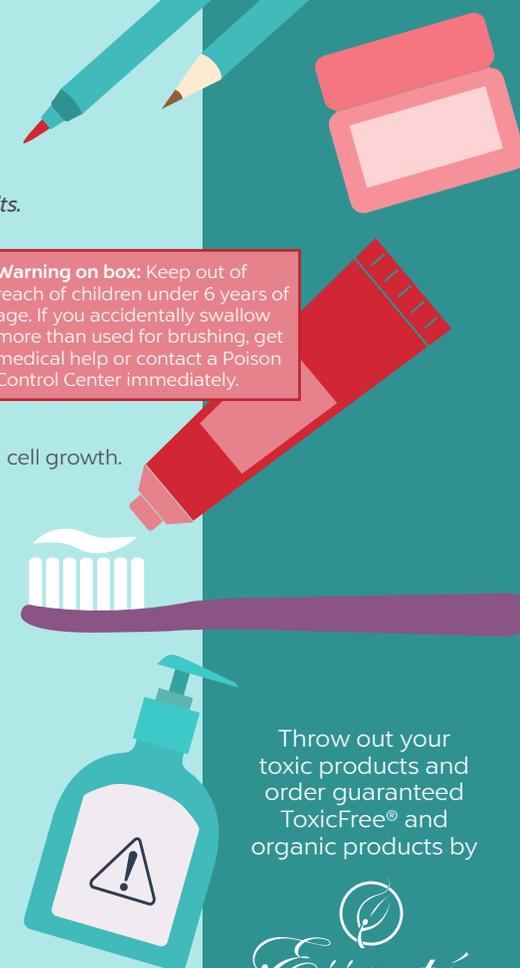

COLORS/DYES (F, D, C, OR CI FOLLOWED BY A NUMBER)

Function: made from coal tar, used to make vibrant colored liquids and products.

Hazards: probable carcinogens, neurotoxins, heavy metal contaminants.

Inside: hair dyes, blue and green household cleaners, pink / purple / blue shampoos, etc.

Essanté Organics only uses plants or minerals to create color.

5

SODIUM HYDROXYMETHYLGLYCINATE (FORMALDEHYDE RELEASER)

Function: preservative gained by using synthetic reactants.

Hazards: allergen, immune system toxicity, cancer.

Inside: hair and skin products (often falsely touted as a natural preservative).

Essanté Organics only uses plant & mineral based ingredients that deliver true health benefits.

6

SODIUM LAURETH SULFATE (SLES OR SLS)

Function: petroleum based lathering and foaming agent.

Hazards: carcinogen, respiratory tract irritant.

Inside: toothpastes, shaving creams, body washes, household cleaners, etc.

Essanté Organics creates rich lather and foam from nutrient-dense coconuts.

7

TRICLOSAN (PRODUCTS LABELED “ANTIBACTERIAL”)

Function: FDA classified pesticide, antibacterial and anti-fungal preservative.

Hazards: endocrine and thyroid disruptor in human breast milk, birth defects, uncontrolled cell growth.

Inside: shaving creams, conditioners, deodorants, cleansers, toothpastes.

Essanté Organics uses mother nature’s ingredients to purify.

8

PETROLEUM (MINERAL OIL OR MINERAL JELLY OR MINERAL GREASE)

Function: petroleum filler for shine, smoothness, creaminess, and glide-ability.

Hazards: European Union classified carcinogen.

Inside: lip balms, creams, waxes, conditioners, lotions, deodorants, etc.

Essanté Organics uses healthy ingredients to create rich, creamy, glide-able products.

9

FRAGRANCE (PERFUME OR PARFUM)

Function: Create a strong scent, term used to hide 4,000+ toxins.

Hazards: carcinogens, endocrine disruptors, birth defects, neurotoxins, head pain.

Inside: colognes and strongly scented bath, kitchen and laundry products.

Essanté Organics uses organic fruits and essential oils to create divinely scented products.

10

DIBUTYL PHTHALATE (DBP)

Function: solvent used to dissolve other chemicals and create better consistency.

Hazards: carcinogen, reproductive toxin, developmental toxin, birth defects.

Inside: Shampoos, shower / bath gels, deodorants, cleaning products, etc.

Essanté Organics does not use toxic chemicals, period.

Warning on box: Keep out of reach of children under 6 years of age. If you accidentally swallow more than used for brushing, get medical help or contact a Poison Control Center immediately.

Is Your Body Acidic?

The Problem

Fish and plants without properly pH balanced water will become sickly or die. The same holds true for all organic matter, even you. Be wise - alkalize.

In the past, it was common for our ancestors to walk for miles and eat 5.5 pounds of alkaline (pH balanced) vegetation every day. This diet created pH balanced homeostasis that sustained immunity and fought off disease. Today, our lives are too busy for that. Today's nutrient-depleted soil is drenched with toxic pesticides too. We must eat 9 organic oranges, to get the nutritional equivalent of 1 orange from 60 years ago. Everything, from healthy cells to cancer cells, healthy soil to depleted soil, healthy marine life to sickly marine life, is affected by pH (Potential Hydrogen), or the acidic vs. alkaline level. Poor lifestyle choices create an acidic body (acidosis).

Effects of Acidosis

Neurological

- Head pressure
- Tiredness
- Confusion
- Loss of consciousness
- Coma

Muscular

- Aches
- Spasms
- Weakness
- Swelling

Intestinal

- Loose stools
- Hard stools

Respiratory

- Shortness of breath
- Coughing

Heart

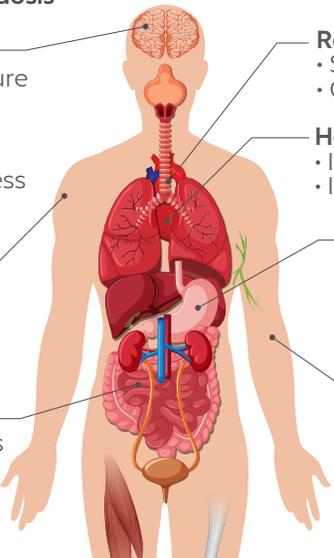

- Irregular heart rate
- Increased heart rate

Gastric

- Nausea
- Vomiting
- Acid burping
- Heartburn

Joint

- Swelling
- Discomfort

Top Acid Forming Foods:

1. Sugar, high fructose corn syrup.
2. Shellfish, organ meats, beef, bacon.
3. Coffee, sodas, alcohol, energy drinks.
4. Processed foods (lunch meat, white bread, etc.).
5. Products with gluten and soy.
6. Dairy including whey, cheese, and cow's milk.
7. Hydrogenated and partially hydrogenated oils.
8. Preservatives (sodium benzoate, etc.).
9. Artificial sweeteners (aspartame, sucralose, etc.).

Top Alkaline Forming Foods:

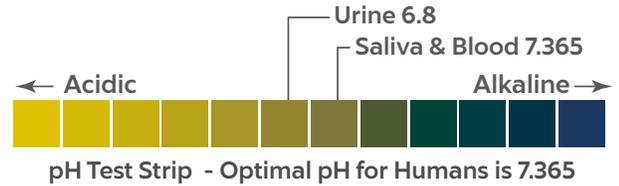

- 10.0 pH:** Spinach, alfalfa, celery, cucumbers, Earth Greens.
- 9.0 pH:** Lemons, sweet potatoes, beets, blackberries, figs.
- 8.5 pH:** Cayenne (chili) pepper, cinnamon, clove, parsley, limes, mangoes, papayas, asparagus, kiwis, pears, pineapples.
- 8.0 pH:** Alfalfa sprouts, apricots, avocados, grapes, garlic, almonds, tomatoes.

The Solution

Use alkalizing products to produce the optimal pH level of 7.365. The Consumer Health Organization states proper pH is vital to living a healthy life. Studies show human disease thrives in an acidic environment, yet cannot grow in an optimal alkaline environment.

Use these alkalizing products to restore your body's pH (alkalinity), health and homeostasis:

- 1. pH Test Strips:** measure and monitor your pH via saliva or urine.
- 2. Supreme pH:** approximately 12 drops alkalizes each beverage.
- 3. Earth Greens:** 5.5 lbs. of organic, alkaline, no-heat dehydrated, chlorophyll rich, whole food vegetable nutrition per serving.
- 4. Omega 3,6,9 Vital Oils:** toxins need to bind to healthy fat to exit the body.
- 5. Vitamin D3+K2:** 10,000 IU daily creates calcium storage in bones & a reservoir of alkaline minerals.
- 6. Daily Digest Enzymes:** to help the kidneys reduce the body's acidic load.
- 7. Probiotic pHlora:** to help the gut reduce the body's acidic load.
- 8. Electromineral Cell Salts +C:** Mother Nature's antacid (neutralizes acidity).
- 9. 7.365 pH Shake (optional):** organic, vegan, pH balanced, protein-packed meal replacement.

Guarantee & Green Seals

30 Day Satisfaction Guarantee

If you are not completely thrilled with your ToxicFree® product, email us within 30 days from purchase at Support@EssanteOrganics.com and request an RMA# (Return Merchandise Authorization #). We'll make it right or refund you. Return shipping fees and a 15% processing fee apply. The one-time \$29.95 website is not refundable.

Leaves Green Footprint®

Essanté Organics is eco-friendly. We use responsible pesticide free farming practices and every ingredient is 100% free from harmful toxins. Most of our corporate systems are paperless, we recycle, and we limit landfill mass. Our plastic containers are BPA FREE. Our packing peanuts are vegetable based and 100% biodegradable. Kids love to watch them disappear in a sink full of water!

Contains Certified Organic Ingredients

We are one of the few companies who proudly displays every product label online. Each certified organic ingredient is noted with the word "organic", or if space is limited an asterisk (*). Ingredients not noted as organic are wildcrafted, toxic free, pesticide free and non-GMO. Our labels are on file with each certifier listed on the back of each label.

Wildcrafted

Wildcrafting is the sustainable practice of respectfully harvesting uncultivated and natural resources from their indigenous, pesticide free habitat for medicinal purposes. Only the wild untouched fruits, flowers, branches, honey, etc. are harvested, leaving plants and hives in tact. See more online.

No GMOs

GMO is the abbreviation for Genetically Modified Organism. We believe you shouldn't mess with Mother Nature so we do not permit GMOs of any kind in our products. There are no long term studies to indicate the safety or efficacy of GMOs.

Greenpeace

Essanté Organics proudly sources our organic palm oil from Agropalma® in Brazil, because it is the only palm oil to hold the Greenpeace® Award for commitment to preserving forestation and protecting animal species including the Sumatran tiger and orangutan. See more online.

Cruelty Free

We do not test on animals. In addition, our farming, sourcing and selection methods ensure all plant and animal habitats remain undisturbed. We ensure what we borrow from the earth is replenished so the animals, with whom we share our planet, can enjoy a healthy environment.

Live ToxicFree® and / or financially free. Take the video tour to discover:

1. The Toxic Before Birth Video

View the “10 Americans” by the Environmental Working Group (EWG). Babies are toxic before birth. Witness the validated and frightening facts. Most fetuses have over 200 toxic chemicals in their blood, before birth, including carcinogens, neurotoxins and hormone disruptors. These toxins come directly from the cheap product ingredient fillers used by the carrying mother and former generations.

2. The Toxic Truth Video

View “The Toxic Truth” by Essanté Organics. This exposé reveals the shocking truth: the products you trust typically contain deadly ingredients. Companies are not regulated by the FDA and thus use over 10,000 cheap, harmful, toxic filler ingredients in their products. These ingredients are proven to cause birth defects, serious diseases and even death. Why? To create a greater profit margin for their company. Discover The Toxic Truth.

3. The Toxic Truth Video

This fast, engaging 12 minute video is the #1 tool people share with others because it talks about the toxic problem and the Essanté Organics solution. Become a conscious consumer and order healthy products, or work from home and enjoy a career with Essanté Organics. Help them with their mission: to help the world go green, one household at a time. There's no obligation to refer to Essanté Organics, yet they'll pay you the highest commissions in the industry as you do.

BAMBOO FUN FACTS

Bamboo is the most renewable plant in the world. It holds the world record as the fastest growing plant on the planet. It grows up to 3 feet every 24 hours, that's 36 inches a day and 1.5 inches per hour. You can literally watch it grow!

Bamboo plants reach maturity quickly, in only 3 to 5 years.

Bamboo releases 30% more oxygen into the atmosphere compared to other plants.

Bamboo absorbs more carbon dioxide than any other plant.

Bamboo is stronger than steel, it's more difficult to smash than concrete! For this reason, it's an ideal exfoliant ingredient; it's strong yet gentle.

Bamboo helped Thomas Edison. Edison and his team discovered and used carbonized bamboo filaments in the creation of the light bulb. These filaments lasted 1,200 hours.

Don't Bug Me! Bug Spray & Repellent Ingredients

Organic Soybean Oil

Organic, Non-GMO, Gluten Free Soybean Oil is the first ingredient in *Don't Bug Me! Bug Spray & Repellent* by design, because Soybean Oil is a powerful and proven bug repellent all on its own. Scientific evidence shows Soybean Oil may provide longer-lasting protection against insects compared to other bug repellents without soybean oil. A 2002 study found Soybean Oil, on its own, protected against mosquito bites for an average of 94.6 minutes, much longer than other oils on their own. A 2004 study tested a repellent made with Soybean Oil. The study shows it protected against mosquito bites 5-7 hours longer than other options that did not contain Soybean Oil. A 2011 study used a group of essential oils mixed in Soybean Oil to test as a repellent against insects. The study shows Soybean Oil may be the best base to create insect repellent mixtures due to its inherent bug repellent properties.

Organic Oils of Lemongrass, Citronella and Castor Bean

The second, third, and fourth organic oils in *Don't Bug Me! Bug Spray & Repellent* are also highly protective, for extended periods of time, against mosquitoes, spiders, fleas and other insects, especially when mixed with Organic Soybean Oil (the first ingredient).

Organic Cedar Wood Oil

The fifth ingredient in *Don't Bug Me! Bug Spray & Repellent* is Organic Cedar Wood Oil, one of the most effective essential oils to repel and kill flies, gnats, ticks and moths.

Organic Rosemary Oil

The sixth ingredient in *Don't Bug Me! Bug Spray & Repellent* is Organic Rosemary Oil, one of the most effective essential oils to repel and kill mosquitoes, lice, fleas, gnats, moths, ticks, silverfish and bean beetles.

Organic Peppermint Oil

The seventh ingredient in *Don't Bug Me! Bug Spray & Repellent* is Organic Peppermint Oil, one of the most effective essential oils to repel and kill mosquitoes, fleas, gnats, ticks and spiders, ants, moths, roaches, chiggers and even bigger pests including mice.

Organic Geranium Oil

The eighth ingredient in *Don't Bug Me! Bug Spray & Repellent* is Organic Geranium Oil, one of the most effective essential oils to repel and kill mosquitoes, flies, gnats and ticks.

Organic Lavender Oil

The final ingredient (listed after Deionized Purified Water) in *Don't Bug Me! Bug Spray & Repellent* is Organic Lavender Oil, one of the most effective essential oils to repel and kill mosquitoes, bed bugs, gnats, flies, spiders, ticks, silverfish, moths and other flying insects. It also soothes bites and stings.

Omeegas 3,6,9 Vital Oils

Each softgel contains certified organic (pesticide free), unrefined, cold pressed flaxseed oil.

Our bodies do not manufacture these critical fats, yet according to webMD men, women and children must have this healthy fat. After oxygen and water, healthy fat is the next most crucial component to health. Fat is needed for healthy heart, kidneys, brain, immune, joint, bone, metabolic, circulatory and reproductive function as well as normal development.

Supreme pH

The simplest way to alkalize everything you eat and drink.

Add odorless, tasteless Supreme pH to all beverages to neutralize acidity and instantly increase the pH level of your beverages and, in turn, your body. An aquarium without proper pH balance will cause the fish to become sickly or die. The same holds true for all organic matter including you. "Humans need alkaline pH levels to live a healthy life" - The Consumer Health Organization. For cells to be healthy they must be floating in a healthy pH or alkaline environment.

Dutch: *De eenvoudigste manier om te "ont-zuren". Voeg geurloze, smaakloze Supreme pH toe aan al je drankjes om de zuurgraad te neutraliseren en je pH niveau te verhogen.*

Norwegian: *Den enkleste måten å alkalisere på. Tilfør lukt- og smakfri Supreme pH til all drikke for å nøytralisere surhetsgrad og øke ditt pH-nivå.*

Swedish: *Det enklaste sättet att alkalisera. Håll doftfri och smakfri Supreme pH i alla drycker för att neutralisera syror och öka ditt pH-värdet.*

pH Test Strips

7.365 is perfect pH for humans. What will you score? Measure and motivate.

If you are using or selling pH products, you should test your and your customer's pH levels. You will be shocked to discover most people are highly acidic. Once this discovery is made, the acidic person will want a quick and proven solution; the products in this catalog are the solution. It is scientifically proven that disease has a more difficult time surviving in an alkaline environment yet thrives in an acidic environment. These test strips measure the alkalinity of saliva or urine instantly.

Dutch: *7,365 is de perfecte pH waarde voor mensen. Wat is jouw score? Meten is weten!*

Norwegian: *7,365 er perfekt pH-verdi for mennesker. Hva ønsker du? Mål og motiver.*

Swedish: *7.365 är det perfekta pH för människor. Vad ligger du på? Mät och motivera.*

Bee Natural Prebiotic

Sweet dissolvable prebiotic tablets with every known ingredient necessary to sustain life. Supports energy, hot flashes, libido, histamine levels, and immunity.

Bee pollen, royal jelly, propolis and honey are one of the few sources rich in energy boosting B5 and B12 Vitamins. The bee-friendly nutrients also support libido, hormone and histamine levels, immunity against bacteria and viruses, and physical performance. Royal Jelly, produced by worker bees, is the secret that, when fed to a bee larva, transforms her into the queen, allowing her to live up to 5 years, as opposed to 12 weeks which is the lifespan of standard bees.

Dutch: *Zoete en eenvoudig op te lossen tabletten die alle ingrediënten bevatten die voor ons lichaam nodig zijn. Ondersteunt je energie, je libido en je immuunsysteem.*

Norwegian: *Søte oppløselige tabletter med alle kjente ingredienser for livsoppholdelse. Støtter energi, libido og immunforsvar.*

Swedish: *Söta upplösbara prebiotiska tabletter med alla kända ingredienser som är nödvändiga för att upprätthålla livet. Stöder energi, värmevallningar, libido, histaminnivåer och immunitet.*

Super Sprout Sterols

Supports T-cell proliferation & function, cholesterol, immunity & hormones.

Delivers the greatest concentrations of glucosides. Made from certified organic, harvested plant sprouts with highest concentrations of sterols. Sterols absorption of LDL cholesterol may lower cholesterol per the FDA. Captured and concentrated in a certified organic, proprietary process.

Dutch: *Ondersteunt proliferatie en functie van T-cellen, cholesterol, immuniteit en hormonen.*

Norwegian: *Støtter spredning og funksjon av T-celler, kolesterol, immunitet og hormoner.*

Swedish: *Stöder T-cellproliferasjon och funktion, kolesterol, immunitet och hormoner.*

Daily Digest Enzymes

9 plant enzymes to support everyday digestion, assimilation, nutrient absorption, elimination, detoxification, blood health, and immunity.

The Problem: We lose vital digestive enzymes as we age and when we cook foods. Enzymes can be destroyed by temperatures exceeding 118 degrees, farming, processing, exercise & heredity. If our enzyme count is low it can cause poor digestion, low immunity and issues with dairy, gluten and nutrient absorption.

The Solution: Gluten free Daily Digest is guaranteed to deliver the highest digestive enzyme activity, and work better than any other enzyme product. This full spectrum, dietary supplement contains every necessary active digestive enzyme (9 total) and every catalytic ionic mineral required (77 total).

Dutch: 9 plantaardige enzymen ter ondersteuning van de dagelijkse spijsvertering, assimilatie, opname van voedingsstoffen, eliminatie, ontgiftning, bloedgezondheid en immuniteit.

Norwegian: 9 plante enzymer for å støtte daglig fordøyelse, assimilering, næring absorpsjon, eliminerer, avgiftning, blod helse og immunitet.

Swedish: 9 växtenzymmer för att stödja daglig matsmältning, assimilering, näringsabsorption, eliminering, avgiftning, blodhälsa och immunitet.

Probiotic pHlora

Our proprietary, patented processing technology makes Probiotic pHlora the ONLY probiotic formula in the world proven to cultivate, multiply, grow & colonize inside the human body after consumption.

Complete Gastrointestinal support formula aggressively destroys overgrowth of bad bacteria including yeast. Contains 7 billion "good" bacteria which grow, cultivate, multiply, & colonize in the body. Supports digestive, urinary, colon, elimination, gas, bloating, yeast reduction, properly balanced bacterial flora & pH levels. Also supports immunity, cellular health & detoxification.

Contains 7 healthy bacteria strains including the most expensive & aggressive: L. Salivarius, the "HERCULES" of all probiotics. Most formulas do not include this strain because it is the most difficult and expensive to produce. This strain changes the GI environment more rapidly than any other strain.

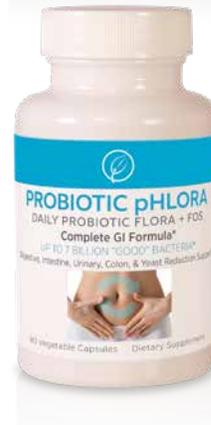

Dutch: Onze eigen gepatenteerde verwerkingstechnologie maakt dat Probiotic pHlora de ENIGE probiotische formule ter wereld is waarvan bewezen is dat deze zich na consumptie in het menselijk lichaam cultiveert, vermenigvuldigt, groeit en koloniseert.

Norwegian: Vår proprietære, patenterte prosesseringsteknologi gjør Probiotic pHlora til den ENESTE probiotiske formelen i verden som er bevist, formere seg, vokse og kolonisere seg i kroppen etter inntak.

Swedish: Vår patenterade bearbetningsteknik gör Probiotiska pHlora den enda probiotiska formeln i världen som visat sig odla, multiplicera, växa och kolonisera sig inuti människokroppen efter konsumtion.

Vitamin D3 + K2

Immune, cellular and mood support.

While it is critical to the overall health of the immune system, nervous system, brain, bones, muscles, joints, heart, and proper cellular production, we rarely get enough of crucial Vitamin D3 because very few foods, outside of fatty fish, naturally contain it. Sun exposure is the main source, yet overcast weather conditions inhibit proper intake of vitamin D3. Supports: healthy adolescent development, autoimmune function, motor coordination, emotional development, memory, antioxidant levels, pH balance and absorption of vital minerals including magnesium, zinc and iron.

Potency Why Essanté Organics Essential Oils Work

The essential oil of each plant acts as the plant's immune system, fighting against molds, fungi, viruses, bacteria and other issues that can harm or kill the plant. Essential oils can support humans the same way.

Efficacy Essanté Organics Essential Oil Selection Process

Essanté Organics offers the finest oils in the world; certified USDA Organic, pesticide free, and sustainably cultivated essential oils. Following this selection process, each oil is micro tested at the cultivation level, prior to transport, upon arrival and at the post production level. For additional details see the Guarantee & Green Seals page at the front of this catalog.

Proven to repel (and may kill):

Organic Soybean Oil

Organic, Non-GMO, Gluten Free Soybean Oil is the first ingredient in *Don't Bug Me! Bug Spray & Repellent* by design, because Soybean Oil is a powerful and proven bug repellent all on its own. Scientific evidence shows Soybean Oil may provide longer-lasting protection against insects compared to other bug repellents without soybean oil. A 2002 study found Soybean Oil, on its own, protected against mosquito bites for an average of 94.6 minutes, much longer than other oils on their own. A 2004 study tested a repellent made with Soybean Oil. The study shows it protected against mosquito bites 5-7 hours longer than other options that did not contain Soybean Oil. A 2011 study used a group of essential oils mixed in Soybean Oil to test as a repellent against insects. The study shows Soybean Oil may be the best base to create insect repellent mixtures due to its inherent bug repellent properties.

Organic Oils of Lemongrass, Citronella and Castor Bean

The second, third, and fourth organic oils in *Don't Bug Me! Bug Spray & Repellent* are also highly protective, for extended periods of time, against mosquitoes, spiders, fleas and other insects, especially when mixed with Organic Soybean Oil (the first ingredient).

Organic Cedarwood Oil

The fifth ingredient in *Don't Bug Me! Bug Spray & Repellent* is Organic Cedar Wood Oil, one of the most effective essential oils to repel and kill flies, gnats, ticks and moths.

Organic Rosemary Oil

The sixth ingredient in *Don't Bug Me! Bug Spray & Repellent* is Organic Rosemary Oil, one of the most effective essential oils to repel and kill mosquitoes, lice, fleas, gnats, moths, ticks, silverfish and bean beetles.

Organic Peppermint Oil

The seventh ingredient in *Don't Bug Me! Bug Spray & Repellent* is Organic Peppermint Oil, one of the most effective essential oils to repel and kill mosquitoes, fleas, gnats, ticks and spiders, ants, moths, roaches, chiggers and even bigger pests including mice.

Organic Geranium Oil

The eighth ingredient in *Don't Bug Me! Bug Spray & Repellent* is Organic Geranium Oil, one of the most effective essential oils to repel and kill mosquitoes, flies, gnats and ticks.

Organic Lavender Oil

The final ingredient (listed after Deionized Purified Water) in *Don't Bug Me! Bug Spray & Repellent* is Organic Lavender Oil, one of the most effective essential oils to repel and kill mosquitoes, bed bugs, gnats, flies, spiders, ticks, silverfish, moths and other flying insects. It also soothes bites and stings.

Jojoba Carrier Oil

USDA Organic, unrefined, cold pressed, therapeutic, odorless, stainless, antioxidant rich carrier oil. Excellent for infants and the elderly.

Sacred, golden Jojoba Oil does not leave a residue on the skin. It is easy to apply and does not stain sheets or clothing.

Being massaged with Essanté Organics Jojoba Oil feels like having pure silk flow against your skin. Perhaps the exceptional glide and perfect feel is due to the fatty acid profile; it is almost identical to our skin's fatty acid profile. Thus, Jojoba Oil is effortlessly and wholly absorbed by our skin instantly.

Jojoba seeds are rich in precious oil. They are harvested at the peak of the season, then meticulously pressed by our artisan pressers to create one of the most antioxidant rich massage and carrier oils in the world.

Jojoba Oil Supports:

Sensitive skin, skin imbalances, blemishes, infant scalp issues, scars, and stretch marks.

Dutch: *Ongeraffineerde, koudgeperste, therapeutische, geurloze, vlekvrige, anti-oxidante, en rijke basisolie. Uitstekend voor kleine kinderen en ouderen.*

Norwegian: *USDA økologisk, uraffinert, kaldpresset, terapeutisk, fargeløs, flekkfri basisolje rik på antioksidanter.*

Utmerket for babyer og eldre.

Swedish: *USDA Organic, oraffinerad, kallpressad, terapeutisk, doftfri, fläckfri, antioxiderande, rik basolja. Perfekt för nyfödda och de äldre.*
